Hamid Reza Taghiyari, PhD

Shahid Rajaee Teacher Training University, Iran

L. P. Singh, PhD

CSIR- Central Building Research Institute, Roorkee, India

Nanomaterials and Molecular Nanotechnology is very vast discipline of Nanotechnology, ranging from extensions of conventional device physics to completely latest advances based upon molecular self-assembly, from developing novel equipment with dimensions on the nanometer scale for investigating whether one can directly control matter on the atomic scale. The Journal of Nanomaterials & Molecular Nanotechnology (JNMN) promotes rigorous research that makes a significant contribution in advancing knowledge of Nanotechnology.

Journal of Nanomaterials & Molecular Nanotechnology uses online manuscript submission, review and tracking systems of SciTechnol for quality and quick review processing. Submit your manuscript at <http://www.scitechnol.com/submission/>
