Cell Biology: Research & Therapy (CBRT) promotes rigorous research that makes a significant contribution in advancing knowledge in the fields of cell and molecular biology. CBRT is lead by scientists throughout the world and provides the editors with expert refereeing, ensuring the high quality of articles published in the Journal. It invites the reports of theoretically informed and empirically grounded research which focuses on important issues related to the field of cell and molecular biology.

Cell Biology: Research & Therapy uses online manuscript submission, review and tracking systems of SciTechnol for quality and quick review processing. Submit your manuscript at <http://www.scitechnol.com/submission/>
