Hypoglycemia and Hyperglycemia refers to low and high blood glucose levels respectively leading to various complications that may be fatal sometimes. The Journal of Hypo & Hyperglycemia (JHHG) promotes rigorous research that makes a significant contribution in advancing knowledge for diabetes medication. JHHG includes all major themes pertaining to diabetes and related side effects.

Journal of Hypo & Hyperglycemia uses online manuscript submission, review and tracking systems of SciTechnol for quality and quick review processing. Submit your manuscript at <http://www.scitechnol.com/submission/>
