Dear Dr. Menicagli Roberto,

Greetings from SciTechnol.

I hope this email finds you in good health.

We are very glad to introduce our newly launched peer reviewed Open Access Journal- **[Research and Reports in Gastroenterology](#)** to address clinical research and practice of Gastroenterology studies through its publications.

We would like to invite you to join the elite group of our **Editorial Board Member** and we are certain that with your enthusiasm and support, we can make our ambitious goal a reality. If you accept this invitation, you can anticipate receiving occasional requests to review papers close to

your primary area of interest. The reviewing load is modest and should not exceed one to three papers per year.

If you are interest to serve on the Journals' Editorial Board, kindly provide us your updated CV, short biography and photograph with a mail of consent as the details of each editor will be shown online in Editorial Board page of the Journal.

We sincerely hope you will accept our invitation to join the editorial board. Although there are already some good journals in the field, this journal presents some new opportunities to reconnoitre medical science with its publications.

If you have any queries, concerns and comments, please do not hesitate to contact us.

Best Wishes for your continuing research.

Regards,

Rana D
