Speciality of contact lenses in practice

Bilal Rawashdeh
Sharif Eye Centres, UAE

Contact lenses play an Effective role in the treatment plan for critical cases especially in paediatric and refractive unites. In this presentation, short and direct to the point – case studies will be discussed to show (practically) the Importance of specialty contact lenses in practice. Case studies will include scleral CL fitting, aniridia and albinism (made to order) CLs. All cases will be in a simple and direct to the point manner, Q & A are more than welcomed.
