Breast cancer: Ruqya and negative ions treatment

Mira Bajirova
IVF, UAE

The causes of Breast Cancer (and almost of all diseases) are Decreased Oxygen Utilization and Jinn. Decreased Oxygen Utilization is induced by Positive Ions, everything man-made. The Negative Ions are the best against Positive Ions. Positive Ions cause acidosis and hypoxia, inflammation inducing consequently the diseases. The Negative Ions are abundant in the clean nature (rain, waterfall, sea, forest) and there are many Negative Ions products. Allah says: "(Remember) when

He overwhelmed you with drowsiness (giving) security from Him and sent down upon you from the sky, rain by which to purify you and remove from you the evil (suggestions) of Satan and to make steadfast your hearts and plant firmly thereby your feet." (Quran, Al-Anfal 8:11). Ruqya is a cure from Allah for all diseases. "Allah has not sent down any disease but He has also sent down the cure; the one who knows it, knows it and the one who does not know it, does not know it".

Biography

Dr Mira Bajirova, Associate Professor, Consultant IVF, Ob-Gyn from Paris, France. Born in Kazakhstan, moved to Moscow for Medical Studies and Scientific studies, PhD. After spending 13 years in Moscow, moved to Paris in 1989. Medical and PhD were not recognized. New language.
