Journey to liberty: Museum of Philippine political history virtual tour

Ma Corazon G Fernando
FEU Institute of Technology, Philippines

The project is primarily focused on the Virtual Tour for the Museum of Philippine Political History. Virtual Tour was chosen as a promotional tool because it is one of the contemporary media today. The tour will showcase each of the station and artifacts that are present there, it will have 360° audio-visual presentation and 360° free-roam tour. The audio-visual presentation will have narration for each station inside the museum, the free-roam tour you can interact with the artifacts inside of each station present in the museum. The project's goal and advocacy are to provide an innovative experience and knowledge about the state of the country's political state throughout the years while it provides promotion to the museum and information about it. The promotion doesn't only aim for the museum but also for the political history so that the community would understand its importance and significance. The virtual tour will be present on their government website, Facebook page, and a promotional website.
