ENDOLIFT AND ULTHERAPY FOR THE BEST FACE, NECK AND BODY NON-SURGICAL LIFTING

Dell'Avanzato Roberto

Espace Chenot Health Wellness & SPA - L'Albereta Relais & Chateaux, Italy

Background: We evaluated the results after 13 years of endolift laser technique for the soft rejuvenation of face, neck and body using a very thin optical fiber connected to a 1470 nm diode laser, combined in the last years with ultherapy which allows in a single session to lift the muscles and the skin.

Methods: We report our experience after more than 4000 areas treated with endolift for the treatment of skin laxity of the face, neck and the body. A 200-300 micron fiber is used for the face and the neck; a 400-600 micron fiber is used for the body. The fiber is easily inserted, without incisions under the skin directly in the superficial hypo-derma. After endolift, an ultherapy session is performed.

Results: The areas of skin laxity of the face, neck and body, can benefit from the possibility that the endolift laser has to retract the skin and remodel the derma, activate the collagen production, stimulate the neo-angiogenesis. Ultherapy helps to obtain the maximum result possible working more deeply the middle and

deep hypo-derma up to the muscular fascia, permitting to obtain an immediate and a long-term lifting.

Conclusions: Endolift laser combined with ultherapy is the best non-surgical treatment for the areas of muscular and skin laxity of the face and the neck.

Biography

Dell'Avanzato Roberto is a Specialist in Surgery. He has completed his Master's degree in Aesthetic Medicine and Surgery. He is a Professor of Laser and Laser Assisted Liposuction at San Marino University, San Marino. He has completed his Diploma in Laparoscopic Surgery at Louis Pasteur University of Strasbourg, France. He is the Honorary Member of the Israel Academy of Beauty and the Honorary Member of the Italian Academy of Beauty. He was awarded with the Certificate of Excellence from Pakistan Medical Association, for humanitarian services rendered to the burnt and scarred victims of Pakistan and Certificate of Merit awarded from the Combined Military Hospital of Islamabad, Pakistan for humanitarian services.
