

Scope of Clinical Dermatology Research Journal

Cassian Sitaru*

Introduction

Clinical Dermatology Research Journal is a peer-reviewed scholarly journal, which provides the biannual publication of articles. In the year of 2019, we have published a very good number of articles, in 2019 which were recent discoveries.

Types of research work: Research, original articles, review articles, short review, case reports, case studies, case series, short communications, etc. in all areas of sleep medicine. The impact factor of the journal is 0.81. Impact factor measures the quality of the Journal. ISSN number for the journal is 2576-1439.

Clinical Dermatology Research Journal is an open access journal. We provide a rapid turn-around time possible for peer reviewing and publishing the article online and to disseminate the articles freely for research, teaching and reference purposes.

Scope of journal

Clinical Dermatology Research Journal focuses on the topics include: Dermatology, Skin Biology & Epidemiology, Cutaneous Biology, Dermatopathology, Pediatric Dermatology, Cutaneous Oncology, Dermatotomy, Investigative Dermatology, Cosmetic Dermatology

Skin diseases and infections

Skin diseases includes common skin rashes to severe skin infections, which occurs due to range of things, such as infections, heat, allergens, system disorders and medications

Dermatology

The skin is the largest and most visible organ of the body. It reflects the health of the body and acts as a barrier against injury and bacteria

Cutaneous biology

Human skin is the largest organ of the body. Together with various other components such as glands, fingernails, and hair, it comprises a complex system known as the integumentary system. Cutaneous biology is the study of cellular and molecular biology of human skin and its associated diseases.

Cutaneous oncology

Cutaneous oncology is the medical speciality dealing with screening, diagnosis and treatment of skin cancers/melanomas.

Cosmetic dermatology

Cosmetic dermatology is a specialty of medicine involved to treat the skin, hair, or nails using a treatment that is meant to improve a patient's appearance rather than treat a disease.

Pediatric dermatology

Pediatric dermatology is the specialty of medicine for children (newborns-adolescents) with skin disorders. A pediatric dermatologist is a dermatologist who specializes in diagnosing and treating children, including newborns and infants.

2019 Highlights of Journal

Using mobile phones to contact. Sent Call for papers for the experts in the particular field. Approaching the Editors suggested eminent in particular sphere. Approaching potential reviewers for the Call for papers. Maintaining the frequency of articles..

Upcoming tactics to improve journal

We strive to improve readers for the published respective article in various social media platforms like Twitter, Linked in, etc. We are sending timely Call for papers for the respective countries according to their time line. We are using Search Engine Optimization (SEO), by adding major keywords in the article. We are also available to the authors through Whatsapp to respond fast..

Conclusion

We follow many strategies to promote our journal we choose social media as a best platform to expose our journal. Mainly we use twitter, LinkedIn, Facebook and WhatsApp for posting the highlights of journal and also for manuscript submission.
