2020 Awards for World Summit on Blood Glucose Monitoring

Elaine Patterson,

Senior R&D Scientist, DuPont Nutrition and Biosciences, Kantvik, Finland, E-mail: elaine.patterson@dupont.com

Conference series is hosting the **World Summit on Blood Glucose Monitoring at Beijing, China during October 04-05, 2020.**

[DIABETES EXPO 2020](#) welcomes all the [Diabetologists](#), and other medical & clinical experts working the arena of Endocrinology, Metabolic Syndrome and related field to this upcoming DIABETES EXPO 2020 [Beijing, China](#).

Diabetes is a life time disorder that causes a person's blood sugar level to become too high. Diabetes has many complications associated with it. It increases the risk of many serious health problems but with the correct treatment and recommended lifestyle changes, many people with diabetes are able to prevent or delay the onset of complications.

Expert Level (Scientific Service Achievement Award):

This [Expert Level](#) Scientific Award is given to the renowned scientific personnel who have contributed their services with a passion, dedication and commitment for the human development and distinguished experts who have made significant, sustained and continuing contributions in the field of **Diabetes**. It is considered as the most esteemed award of the entire conference. His/her donation could be long-term, cumulative or single, particularly insightful, experimental, applicable, or interpreted ideas. This prestigious award could be given for the nominee who had demonstrated significant, independent contribution in their selected area of research with a min of 20+years of experience in **Diabetes** and productively engaged in respective leading edge technology. The achiever of the award must have completed MD or PhD, or equivalent. The recognition of the award will be taking into consideration for the independence of thought, originality and significance of discovery, and impact on his/her area of research. Eligible Candidates can upload their Research Portfolios online with their latest 10 publications, landmarks obtained during their research.

Professional Level (The Research Contribution Award):

The [Professional Level](#) Researcher Award is given to a scientific personal who had made a significant contribution with the commitment towards the knowledge development in the field of **Diabetes** research. This Research Award could be given for the nominee who had demonstrated significant, independent contribution in their selected area of research with a min of 10+years of experience in **Diabetes** and productively engaged in respective leading edge technology. The nominee has to attain recognition by professional societies, community, organizations or other

completed MD or PhD, or equivalent. The recognition of the award will be taking into consideration for the independence of thought, originality and significance of discovery, and impact on his/her area of research. Eligible Candidates can upload their Research Portfolios online with their last few publications, landmarks obtained during their research.

Scholar Level (The Upcoming Researcher Award):

The [Scholar Level](#) Researcher Award recognizes innovative contributions grounded in relevant research field that raise important research questions, offer original contributions to the field, and are supported by compelling visual and textual evidence. The nominee(s) may work in any type of organization: corporate, government, non-profit, or academic background who have completed/submitted his/her PhD thesis in the field of **Diabetes** research. Eligible Candidates can upload their Research Portfolios online with their last few publications, landmarks reached during their research.

Women Scientist (The Women of Science Award):

[Women Scientist Award](#) highlights major contributions by Female scientists/researchers to **Diabetes** research. The pursuits of the award are inspiring role models for the future generations of women in science. The nominee must be recognized internationally for outstanding contributions in the field of **Diabetes** research. The nominee(s) may work in any type of organization: corporate, government, non-profit, or academic with 10+ years of experience in the field of **Diabetes** research. Eligible Candidates can upload their Research Portfolios online with their last few publications, landmarks reached during their research.

Outstanding speaker in Blood Glucose Monitoring 2020:

This award acknowledges the [best speakers](#), who have the capacity to engage a diverse variety of audiences, captivate them with their style and deliver a message that conveys their expertise. A speaker can present their projects, strategies, and schemes that have been implemented by them to improve long-term excellence in **Diabetes** research. Eligible Candidates can upload their Research Portfolios online with their last few publications, landmarks reached during their research.

Best Poster Presentation in Blood Glucose Monitoring 2020:

This award recognizes the [best poster](#) presentation given during the course of an event to encourage students and recent graduates to present their original research. Recipient of this award will be selected by the judge of the poster session. An award winning poster will be evaluated on presentation content and clarity, innovativeness of approach, communication criteria and scientific aspects. It will also be based on layout, insights, analysis and results description. The awardee will be felicitated after the completion of poster session. Eligible Candidates can upload their Research Portfolios online with landmarks, reached during their research.
