

## 2020 Conference Announcement on 15th International Conference on Virology, Emerging Diseases & Vaccines

**Giulio Filippo Tarro**

Professor, World Academy Biomedical Technologies, Italy

E-mail: [giuliotarro@gmail.com](mailto:giuliotarro@gmail.com)

### Past Conference Report

[Conference series LLC](#) takes immense pleasure in inviting all the participants from across the globe to attend "[15th International Conference on Virology, Emerging Diseases & Vaccines](#)". This comprises of proficient keynote presentations, verbal speeches, productive poster presentations and exhibitions providing insights to the importance and efficiency of dentistry in Healthcare. The conference will take place in **Montreal, Canada during July 20-21, 2020**.

Virology & Viral Diseases 2020 highlights the theme "Innovative Ideas for Excellence Future in Dental and Oral Health Care" which is intended to provide an exclusive platform for new researchers, scholars, surgeons, physicians, students and educators to show case their novel ideas and discuss the most recent innovations, trends and key concerns adopted in the field of Microbiology. The two days of educational program will include keynote presentations, oral presentations, and poster presenters on the advanced techniques as well as papers in all the fields of Virology in health care. Virology & Viral Diseases 2020 aims to explore advances in Medical practice, management and education in relation to health disparities as well as a breadth of other topics.

### Attendees can:

- Take advantage of opportunities to learn insights about Virology and Viral Diseases from a variety of oral and poster presentations.
- Meet and network with dentistry ranging from students to deans, faculty, and researchers.
- Take advantage of opportunities to collaborate with Microbiology experts from around the world.
- Attend prominent plenary sessions about relevant issues affecting dental care and the recent techniques adapted in Microbiology.

### Why should attend?

It can really help you to have that expert authority in your field of specialization compared to your peers. This will give you a chance to broaden your knowledge on Virology specializations which can give you a chance speak on Microbiology events or write publications. Most patients always like to deal with Microbiologists who have an authority on their fields of specialization

All submitted conference papers will be peer reviewed by competent reviewers. The post conference proceedings will be abstracted and indexed in the International Journal of Microbiology. The conference abstracts and proceedings book and certificate of presentation will be distributed to participants at the conference registration desk.

Submission guidelines and registration prices information for Speakers and Delegates are posted on the [Virology website](https://virology.conferenceseries.com/) at <https://virology.conferenceseries.com/>. Online entries will be accepted from November 01, 2019- April 8, 2020.

**Virology & Viral Diseases 2020 will be held in Montreal, Canada from July 20-21, 2020.**

Virology & Viral Diseases 2020 aims to discuss the wonders happening in the ever growing field of Microbiology. This conference is an acting stage for business professionals, Microbiology Directors, academicians, technicians and mainly students to showcase their innovations and new ideas. Virology & Viral Diseases 2020 will have more than 100 International renowned speakers to share their latest research results to participants; the planned program will cover a variety of subjects in the field of Microbiology. The conference will also provide an opportunity for interaction and interchange ideas through posters, open discussion and program project. We strongly believe that the exchange of knowledge and experience will result in a strong global collaboration between you and us

\*Are you willing to showcase research results and recent objectives achieved? During Virology & Viral Diseases 2020, all participants will be able to provide at the registration desk a poster outlining your main results. Why?

Because you will have the chance to present them at the Knowledge exchange session (July 20 forenoon) and meet the authors of the speech you find most interesting during the final Networking Session!

#### **Venue:**

Montreal is the most populous municipality in the Canadian province of Quebec and the second-most populous municipality in Canada. Originally called Ville-Marie, or "City of Mary" it is named after Mount Royal, the triple-peaked hill in the heart of the city. The city is centred on the Island of Montreal, which took its name from the same source as the city, and a few much smaller peripheral islands, the largest of which is Île Bizard. It has a distinct four-season continental climate with warm to hot summers and cold, snowy winters.

In 2016, the city had a population of 1,704,694, with a population of 1,942,044 in the urban agglomeration, including all of the other municipalities on the Island of Montreal. The broader metropolitan area had a population of 4,098,927. French is the city's official language and is the language spoken at home by 49.8% of the population of the city, followed by English at 22.8% and 18.3% other languages. The agglomeration Montreal is one of the most bilingual cities in Quebec and Canada, with over 59% of the population able to speak both English and French. Montreal is the second largest primarily French-speaking city in the world, after Paris. It is situated 258 kilometers (160 mi) south-west of Quebec City.

#### **Subject Advantages:**

Meet Experts & Influencers Face to Face

Networking Opportunities

Learning in a New Space

New Tips & Tactics
