2020 Market Analysis of Annual Congress on Pharmacology & Toxicology September 14-15, 2020 | Vienna, Austria

Jason Haxton,

Professor, A. T. Still University, Museum of Osteopathic Medicine,
Missouri, USA, E-mail: jhaxton@atsu.edu

[Pharmaceutical conferences](#) cordially invite participants from all over the world to attend “**16th Annual Congress on Pharmacology & Toxicology**”, scheduled during **September 14-15, 2020 at Vienna**, Austria mainly focused on the theme “Sights and Insights into Pharmacology and Toxicology”.

The event offers a best platform with its well-organized scientific program to the audience which includes interactive panel discussions, keynote lectures, plenary talks and poster Sessions. [Pharmaceutics & Toxicology](#) is a global platform to discuss and learn about research Advances in Anticancer Drug Delivery for tumor targeting ,Drug Delivery Research, Drug Targeting and Design, Nano medicine & Nanotechnology, Pharmaceutical Technology, Medicinal Chemistry and Drug Discovery, Novel Drug Delivery Systems, Pre-formulation & formulation aspects, [Biopharmaceutics](#) and Biologic Drugs.

Market Analysis:

[Pharmaceuticals](#) account for about 16.5% of Austria’s aggregate healthcare expenditure and 1.8% of GDP. In 2018, pharmaceutical sales were \$8.2 billion or \$942 per capita. Both trade in and sell overseas have increased substantially in recent years, a trend that should persist at an estimated 3.3% annual market growth rate over the next several years. US pharmaceutical manufactured goods enjoy excellent success in the Austrian market and are the leading US trade category, with 25% growth from 2017 to 2018 according to US Census data. US companies hold around 30% of the market, and the Austrian operations of US companies are seen as market chiefs in the biotech division. The greatest contest for US exporters to Austria is the process of acquiring authorization for compensation financing from the social insurance carriers.

The most important market drivers for the Austrian pharmaceutical market are: An elderly inhabitant; precipitous advances in [pharmacological](#) knowledge that is producing new medication options; and cost limitations as implemented by the legislative national healthcare insurance carriers. Another fascinating view of Austrian healthcare is the commonly held disbelief about what Austrians refer to as “school medicine,” which refers to science-based contemporary medicine. Alternative therapies, including organic therapies, homeopathic products, and traditional Chinese medicine, while not returned by the insurance carriers, have a wide following and are a substantial source of income for pharmacies.

Conference Series on Pharmacology conferences embrace research scholars, academic professors, and [pharmacologists](#) who endeavor to disseminate their research experience to escalate the forthcoming research ideas. Conference Series LLC Ltd. is an open resource platform that conducts 3000+ global events including International Conferences, Workshops, Symposia, Trade Shows, Exhibitions, and Science Congresses in all the major scientific disciplines, including expert clinicians, researchers & leaders of stakeholder organizations in the field of [Pharmacology](#), and for early career across America, Europe, The Middle East, and Asia Pacific.

It is our utmost pleasure to formally invite you for “16th Annual Congress on Pharmacology & Toxicology”, scheduled during September 14-15, 2020 at Vienna, Austria mainly focused on the theme “Sights and Insights into Pharmacology and Toxicology”.
