

7th Global Meet on Wireless, Aerospace & Satellite Communications February 12-13, 2020, Paris, France

Editorial Note

We had a huge success with the completion of **7th Global Meet on Wireless, Aerospace & Satellite Communications** on February 12-13, 2020. The significance of the meeting was achieved due to the accumulation of all the related group of spectators of research scientists to share their Knowledge, Research work, Technologies, and furthermore trade of worldwide Information towards the correct crowd at ideal time. Congress has received a generous response from all over the world. This has been organized with the aim of endorsing the development of new perceptions and ideas for investigating the high level of knowledge reached by community in the field of Engineering.

The conference was organized around the theme “*Exploring Next Gen.Technology for a smarter world.*” The congress entrenched a firm relation of future strategies in the field of sensor networks.

We would like to thank all the participants and following keynote speakers:

- Dr.Ing. Giulio Manzoni, Micro space Rapid Pte Ltd, Singapore
- Mohammad Hamdi, Smart Tunisia Technoparks, Tunisia
- Sudeep Giri, Middle Georgia State University, U.S.A
- Latif Ladid, IPv6 FORUM, Luxembourg

We would like to thank each and every participant of Euro Satcomm 2020 webinar to make this a huge success. And special thanks to media partners for the promotion of our event.

The **Conference Series** Engineering Research Conferences aim to bring together the prominent researchers academic scientists, and research scholars to exchange and share their experiences on all aspects of Engineering Research. It is conjointly a knowledge domain platform for researchers, practitioners and educators to gift and discuss the foremost recent advances, trends, and issues in addition as sensible challenges and solutions adopted in the fields of EEE & Engineering.
