About Venue:

[Vancouver](#) is Canada's 3rd largest city with an area population of just under 3 million. It has the mildest climate (along with Victoria) in Canada. Unlike most Canadian Cities, Vancouver is divided into several self-governing municipalities. (Vancouver city itself only has a population of about 565,000). The generic term for Vancouver and its environs is the "Lower Mainland" or "Greater Vancouver". Vancouver is North America's second largest Port (in tonnage & physical size - after New York) and one of the world's major cruise ship ports. I believe it is the 4th largest cruise ship terminus in the world. It has the highest proportion (per capita) of Asians of any North American city. This makes for a great selection of Oriental restaurants. It has one of the largest and oldest Chinatowns in North America.

Date: September 25-26, 2020
