Aaron Kahlow

Abstract:

A workshop to create and deepen the connection with your B Corp community peers by working together to learn how to be a more conscious, values aligned leader. As a collective, we will dive deep into the Interdependent connection of our personal leadership to igniting collective action, thus creating a sustainable impact. A holistic approach to creating greater good in the world through increasing your own personal capacity of “Me” to build a stronger team of “We” and ultimately make the “World” a better place.

In this highly interactive workshop we have been very intentional on providing the space for shared learning experiences, facilitated

group connection exercises and intimate 1 on 1 opportunity to create a more immersive learning experience and a greater connection to your community of leaders. You’ll take these workshop tools into the next 2 days of Champions Retreat where we will discuss our individual and collective roles of Interdependence. If you will be attending Champions Retreat for the first time, this is a unique opportunity to lay the foundation in order to make the most of your time at Champions Retreat
