

## Editorial Note

We had a huge success with the wonderful scientific sessions in the 2nd World Depression Congress held on April 27-28, 2020 Webinar.

The significance of the meeting was achieved due to the accumulation of all the related group of spectators of research scientists to share their knowledge, research work,

technologies, and furthermore trade of worldwide Information towards the correct crowd at ideal time. Congress has received a generous response from all over the world.

This has been organized with the aim to the corporate community and to create a platform for the exchange of information on technological developments, new scientific

modernization and the effectiveness of various regulatory

programs towards Depression Congress 2020. The conference was organized around the theme “New Innovations in serious depression and trauma management”. The congress entrenched a firm relation of future strategies in the field of psychiatry and neuroscience.

We would like to thank:
