About City Madrid, Spain

Full of energy and packed with cultural attractions, Madrid is a modern metropolis that offers a taste of the real Spain. Wide avenues are congested with traffic, but beautiful parks break up the urban sprawl. Madrid doesn't have the traditional charm of Andalusia or the beauty of Barcelona, instead, it offers exciting atmosphere. The city is constantly buzzing with activity and there are so many things to see and do that tourists will be spoiled for choice. The world-class Prado Museum displays an endless array of masterpieces created during the Golden Age of Spain, and the 18th-century Royal Palace rivals the magnificent Château de Versailles. Save energy for the evening, when the city really comes to life. Madrileños love going out on the town, and the *paseo por la noche* (evening stroll) is a cherished ritual. If possible, avoid visiting during summer when the heat is oppressive. Spring or falls are the best times to appreciate Madrid.
