Arup Ratan Choudhury

Professor, Department of Dentistry, Bangladesh Institute of Research and Rehabilitation for Diabetes, Endocrine and Metabolic Disorders (BIRDEM), Bangladesh; E-mail: profarupratanchoudhury@yahoo.com

Announcement

Dentists are doctors who specialize in oral health. Their responsibilities include: Advocating oral health and disease restraint. Creating treatment plans to maintain or restore the oral health of their patients. They treat dental cases, such as cavities, and they also educate their patients about how to improve their dental health. [Dental](#) surgeons see patients who have deformities or other issues related to their dental health. They perform surgery on the patients and will make sure to correct specific [dental issues](#). Pediatric dentists are dedicated to the oral health of children from early stages. They have the experience and qualifications to care for a child's teeth, gums, and mouth throughout the various stages of childhood.

Dentistry, also known as dental medicine and oral medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity, commonly in the dentition but also the oral mucosa, and of adjacent and related structures and tissues, particularly in the maxillofacial (jaw and facial) area. Although primarily associated with teeth among the general public, the field of dentistry or dental medicine is not limited to teeth but includes other aspects of the craniofacial complex including the temporomandibular joint and other supporting, muscular, lymphatic, nervous, vascular, and anatomical structures.

The Dentists 2020 is an event that aims to explore the ways to innovate in the field of Dentistry, and to find new catalysts for better dental environment at London, UK on March 30-31, 2020. The conference will serve as a platform to bring together leading dentists with different specialties. Dentists 2020 conference will discuss on the topics such as Oral Microbiology & Pathology, Forensic Dentistry, Dental Nursing, Dental Anesthesiology, Dental Materials Science, Dental Pharmacology, Pediatric Dentistry, Orofacial Myology, Orthodontics & Endodontics, Periodontics and Prosthodontics, Oral and Maxillofacial Surgery.

Dentists 2020 supported by the organizing committee network of renowned scientific and professional expert such as Ravi Rattan, Colesseum Dental Group, UK, Lifong Zou, Barts and The London School of Medicine and [Dentistry](#), UK, Felluspatrick, French Society of Pediatric orthodontics, France, Enrique Bimstein Grimberg, University of Kentucky USA. It provides a platform for collaboration among colleagues, vendors, and academia to reveal new innovations, solutions, ideas, and emerging issues in Dental and Pediatric Dentistry.

The oral pathology global market is expected to have a healthy growth rate in the forecast period (2012-2025). Oral health is essential to general health and quality of life. From past few years, the oral surgeon's market is relatively stable, with substantial growth in restorative CAD/CAM dentistry. National oral surgeons care expenditures were \$113.5 billion in 2014, somewhat up from \$112 billion in 2013 (in inflation-adjusted 2014 dollars) but roughly considered the same level. The global oral care/oral hygiene market is projected to reach USD 53.97 Billion by 2022 from USD 43.31 Billion in 2017, at a CAGR of 4.5%.

Global Dentists and Pediatric [Dentistry conferences](#) going to be held during January 2020 to December 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh)... And Many More...!!!
