exists changes to our sleep patterns which are a part of the normal aging process. Although these changes are a normal part of aging, disturbed sleep, waking up tired every morning.

Delayed Sleep

Delayed Sleep is a sleep disorder where the major sleep episode is delayed by two or more hours of the regular bedtime which causes difficulty in awakening at the desired time.

Hypopnea Syndrome

Hypopnea syndrome or Obstructive sleep apnea is a potentially serious sleep disorder in which breathing repeatedly stops and starts during sleep. It is caused by obstruction to the upper airway. The pauses in sleep are called as apnea.

Sleep Snoring

Snoring is a common condition that can affect everyone, although it occurs more commonly in men and people who are obese. Snoring has a tendency to worsen with age. Snoring may occur at night or day times.

Sleep Deprivation

Sleep deprivation occurs when an individual fails to get enough sleep that a person required. The amount of sleep a person requires changes from one person to another; generally most adults need about seven to eight hours of sleep each night to feel alert and well rested. Sleep Deprivation may be chronic or acute.

Insomnia

Insomnia is a sleep disorder that is characterized by difficulty in falling and being in asleep conditions. It is also termed as sleeplessness which is characterised by symptoms of difficulty in sleeping, waking up early in the morning, feeling fatigue up on waking..

2019 Highlights of Journal

Using Mobile phones to contact. Sent Call for papers for the experts in the particular field. Approaching the Editors suggested eminent in particular sphere. Approaching potential reviewers for the Call for papers. Maintaining the frequency of articles.

Upcoming Tactics to improve Journal

We strive to improve readers for the published respective article in various social media platforms like Twitter, Linked in, etc. We are sending timely Call for papers for the respective countries according to their time line. We are using Search Engine Optimization (SEO), by adding major keywords in the article. We are also available to the authors through Whatsapp to respond fast.

Acknowledgement

Finally, Journal of Sleep Disorders: Treatment and Care. would like to express sincere gratitude to each and every member for their valuable service in this Publication Process. We always look forward to work with many young scientists across the globe.
