Market Analysis of International Conference on Pediatric Nutrition and Health Care

Raffaele Pilla,

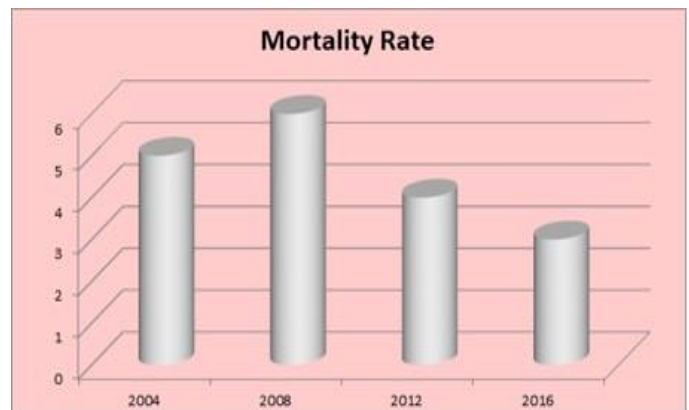

Professor, University of Salerno, Italy, E-mail: raf.pilla@gmail.com

[International Conference on Pediatric Nutrition and Healthcare](#) will be organized during March 23-24, 2020 in [London, UK](#). The meeting Highlights the theme Primary, Acute and Speciality Healthcare for Children. [Pediatric Nutrition](#) 2020 aims to gather eminent scientists, researchscholars, educationists and professionals to express their views on the latest technologies, trends and concerns in [pediatric nutrition](#) and healthcare services. It concentrates on addressing the constant effort being made by scientist and scholars to improve the existing and inventing novel technologies for future.

Importance and Scope

Pediatric medical services are managing the treatment of youngster related sicknesses, their improvement and care. Youngsters regularly experience the ill effects of respiratory, gastrointestinal and other ceaseless infection in light of lower resistance. The worldwide market for pediatrics is accounted to around \$83 billion out of 2013 and anticipated that would develop at 7.8% CAGR in future. Increment sought after for perpetual ailment treatment, Diarrhoea and damage related diseases is more typical in youngsters; be that as it may, these illnesses shift from here and now to long haul medications that expend a considerable measure time and apply money related weights on the guardians. Changes in kid mind drift expands the predominance rate of pediatric sicknesses. This report gives detail data about current situation of [pediatric treatment](#) and expected development in it. The market's critical ascent through 2019 can be credited to the business winding up more acquainted with outlining and actualizing trials in the pediatric population.

Knowing the requirement of the global Market and analysing the needs of the multitude we at Meetings International cordially welcome all the eminent researchers, students and delegates to participate in this upcoming global event of [Pediatrics Nutrition 2020](#) and witness the invaluable scientific exchange of ideas and views. We also invite you to contribute your thought to the future novelties in the field of Pediatrics.

Global Business & Research Value

Medical Nutrition addresses the dietary needs of patients with chronic diseases such as diabetes, cancer, immune system disorders, and others. Changing lifestyles of patients coupled with emergence of rare diseases have created the demand for medical nutrition.

The global Pediatric Nutrition market is valued at 37500 million US\$ in 2018 and will reach 61500 million US\$ by the end of 2025, growing at a CAGR of 6.4% during 2019-2025. The objectives of this study are to define, segment, and project the size of the Pediatric Nutrition market based on company, product type, end user and key regions. market size estimation and validation use both top-down & bottom-up approaches to obtain data from the value and supply chain. The balanced number of buyers and suppliers will result in a negligible demand-supply.

Universities Associated with pediatrics in America

- University of California, USA
- The Mead Johnson Pediatric Nutrition Institute, USA
- Baylor College of Medicine, USA
- University Health Care System, USA
- Boston Medical Center, Boston, Massachusetts, USA
- University of Minnesota, USA
- Jacobs School of Medicine and Biomedical Sciences, USA
- The University of Chicago, USA
- University of Washington, USA
- University of Florida Health Science Center, USA

Universities Associated with pediatrics in Europe

- UNIVERSITY OF GOTHENBURG, Sweden
- University of Cambridge, UK
- Heidelberg University Hospital, Germany
- Radboud University Medical Center (RUMC), Netherland
- University of Edinburgh, Scotland
- Medical University of Vienna, Austria
- The University of Dublin, Ireland
- Medical University of Graz, Austria
- Yerevan state medical university after Mkhitar Heratsi, Armenia

Universities Associated with Pediatrics in Asia Pacific

- National University of Singapore, Japan
- Kyoto University Hospital, Japan
- University of Hong Kong (HKU), Hong Kong
- Osaka University Hospital, Japan
- The Chinese University of Hong Kong, Hongkong
- Faculty of Medicine Siriraj Hospital Mahidol University, Bangkok
- Kyushu University Hospital, Japan
- Nagoya University, Japan
- University of Tokyo Hospital, Japan

Hospitals Associated with Pediatrics in America

- Texas Children's Hospital (Houston)
- Cincinnati Children's Hospital Medical Center
- Children's Hospital of Philadelphia
- Nationwide Children's Hospital (Columbus, Ohio)
- Children's Hospital Boston
- Riley Hospital for Children (Indianapolis)
- Children's Medical Center Dallas
- Phoenix Children's Hospital
- Children's Hospital Central California (Madera, Calif)
- Children's Mercy Hospital & Clinics (Kansas)

Hospitals Associated with Pediatric in Europe

- Grupo Hospitalario Quirónsalud
- Hospital Quirónsalud TEKNON
- Institut Omiq Oftalmologia Medica
- Hospital Quirónsalud Barcelona
- Hospital Quirónsalud Marbella
- Hospital Quirónsalud Malaga
- Hospital Quirónsalud Torrevieja
- Medipol Mega University Hospital
- Anadolu Medical Center
- MITERA General, Maternity-Gynecology & Children's Hospital

Hospitals associated with Pediatrics in Asia Pacific

- Mahkota Medical Centre
- Gleneagles Medical Centre Penang
- Sunway Medical Centre
- Samitivej Children's Hospital
- Singapore Baby and Child Clinic
- KPJ Ampang Puteri Specialist Hospital
- Raffles Hospital
- Apollo Hospital Chennai
- Gleneagles Global Hospitals
- Pantai Hospital

Funding

Tata Memorial Hospital, India's premier cancer-care centre in Parel raised Rs 35 crore to provide free treatment to the 2,800 children registered for treatment there in 2018. In 2017, the corresponding figure was Rs 20 crore. The experiment which started in 2009, with a collection of Rs 60 lakh by the hospital's paediatric cancer department, to ensure every child under 15 gets free treatment- has emerged as one of the country's most heart-warming ways of providing healthcare.

Forecast:

Medical Nutrition Market is valued at USD 41,656.3 Million in 2018 and expected to reach USD 69,109.8 Million by 2025 with the CAGR of 7.5% over the forecast period. According to the report, the global pediatric healthcare market was approximately USD 11,881 million in 2018 and is expected to generate around USD 15,984 million by 2025, at a CAGR of around 4.35% between 2019 and 2025.

Conclusion:

Nutrition and health are interrelated and good nutrition is a prerequisite for good health. Patient nutrition care is an integral part of hospital treatment and the consumption of a balanced diet is crucial to aid recovery. If patient care is to be optimized, then nutrition services need to be appropriate in hospitals. Hospital food service does not operate in isolation but requires the co-operation and integration of several stakeholders to provide the ultimate patient care. Patients and their organisations have many questions when it comes to chronic conditions and relevant food and nutrition guidance. Similarly, there is growing interest to communicate on this topic, providing patients and their families with guidance and good information which meets the needs of patients. Given that nutrition plays an important role in the prevention, treatment and management of many diseases, many patient organisations have identified nutrition as a key topic of activity.
