

Conference Report

Past Conference Report of 18th International Conference on Materials Research and Technology scheduled during June 12-14, 2017 at Italy

Soshu Kirihara

Professor, Physical Sciences and Engineering Research, California South
University, USA, E-mail: kirihara@jwri.osaka-u.ac.jp

Past Conference Report

The 9th World Congress on Materials Science and Engineering which was held in Rome, Italy. The conference was an unprecedented event with huge success and with Participants from across the globe made this event a landmark in the field of Materials Science Conferences. It was Organized by ME Conferences and supported by European Optical Society, American Nano Society, European Nano science and Nanotechnology Association and Nanotechnology Industrial Association

Materials Congress 2017 was held during June 12-14, 2017 at Holiday Inn, Rome; Italy with the theme "Outlining the forefront research in the field of Materials Science and Engineering" drew kind response and spry participation from the scientists, engineers, researchers, students and leaders in the fields of Materials Science and Nanotechnology, who made this event successful. It also provided an invaluable networking opportunity, deploying the foundation for new research endeavours and development projects.

The meeting was carried out through varied sessions, in which the discussions were held on the following major scientific tracks:

- Materials Science and Engineering
- Nanomaterials and Nanotechnology
- Biomaterials and Medical Devices
- Polymer Science and Technology
- Ceramics and Composite Materials
- Electronic, Optical and Magnetic Materials
- Emerging Smart Materials
- Materials for Energy and Environmental Sustainability
- Physics and Chemistry of Materials
- Metals, Metallurgy and Materials
- Mechanics, Characterization Techniques and Equipment's

The conference was initiated with a series of lectures delivered by the Honourable Guests, including

- Robert Huber, Max Planck Institute for Biochemistry, Germany,
- Zhong Lin Wang, Georgia Institute of Technology, USA
- Karl Ulrich Kainer, Helmholtz-Zentrum Geesthacht, Germany
- Gerd Kaupp, University of Oldenburg, Germany
- Takashige Omatsu, Chiba University, Japan
- Milos Netpolik, Institute of Macromolecular Chemistry, AS CR, Czech Republic

The best posters which were awarded

- Mauricio Solis de la Fuente Lawrence, Berkeley National Laboratory, USA
- Marta Casadesús, Polytechnic University of Catalonia, Spain
- He Yun, City University of Hong Kong, Hongkong

ME Conferences offers its dear appreciation to organizations such as American Elements, FujiFilm Dimatrix, European Optical Society, Nanotechnology Industries Association (NIA), European Nanoscience and Nanotechnology Association, American Nano Society and obliged to the Organizing Committee Members, adepts of field, company representatives, various outside experts and other eminent personalities who supported the conference by accelerating the discussion forums.

With the splendid success of Materials Congress- 2017, ME Conferences is proud to announce the 31st Materials Science and Engineering Conference: Advancement & Innovations which will be held during October 15-17, 2018 in Helsinki, Finland.
