Editorial

I am glad to inform that 3 issues of volume 3 were published online well during the year 2019 within the time and the preprints were also released and dispatched within 30 days of publication of the article online. Journal of Chemistry and Applied Chemical Engineering (JCACE) impact factor for the year 2019 was 0.25 and JCACE is under evaluation for indexing in different Indexing agencies.

The editorial board members added are having great potential and are highly active to handle the work. JCACE is an open access journal and provide full access to the readers without taking any charges. The articles submitted, under goes a peer-review process to check the plagiarism (copied content from other articles) content for proving the originality of the work and if there is any plagiarism the author also given a chance to improve the content. During the calendar year 2019, JCACE received a total of 11 papers, out of which 70% were research articles and get acceptance from preliminary quality check for not having any plagiarism in it. All the articles were subjected to the peer-review process under the guidance of editorial board members and 5 of those were accepted. Approval by at least two independent reviewers

and the editor is required for acceptance of a manuscript for publication in JCACE. Average publication lag time of an article was further reduced to 3-5 weeks, and get published within 7 days after acceptance. The authors get satisfactory answers for their query within very short period of time. JCACE provides another facility to author as they can track the status of their manuscript with the help of the manuscript number provided regarding their submission. It is dedicated to publish high-quality research article as well as review paper and other form of article like case report, short commentaries in all areas of chemistry and applied chemical engineering.

In the year of 2020 JCACE aiming to publish more number of articles from foreign authors satisfying all the quality standards of the journal by delivering much information in short and precise content. JCACE have a very broad filed covering all the conventional branches of chemistry like physical chemistry, organic chemistry, and inorganic chemistry as well as spreading to other non-conventional areas like biochemistry, computational chemistry and other. It also posts daily updates on different social media platforms like Twitter, Linked-in, and Facebook to make people aware about the journal highlights and recent topics according to the thing going on in real world. JCACE also provide subscription for readers and membership for author who regularly submit article in the journal. It recently added all the information and instructions for authors on how to submit an article.

I take this opportunity to acknowledge the contribution of all the Editorial board members and the reviewers who actively participated during the final editing of articles published and the assistance received, from the editorial assistant, in bringing out issues of JCACE on time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JCACE.
