Past Conference Report

The 10th International Conference on Gynaecology, Obstetrics and Womens Health was held in Osaka, Japan during June 12-13, 2019 organized by Conference series LLC Ltd.

It was organized by Conference Series and generous response was received from the Editorial Board Members of our Group Journals as well as from eminent scientists, talented researchers and young student community. Researchers and students who attended from different parts of the world made the conference one of the most successful and productive Summit in 2019 from Conference Series.

The two day program witnessed thought provoking keynote and plenary presentations from experts in the field of [Gynaecology](#) and Obstetrics highlighting the theme "Technical Strategies and Advances in Obstetrics and [Gynaecology](#)".

[Gynaecology](#) 2019 was designed in an interdisciplinary manner with a multitude of tracks to choose from every segment and provides you with a unique opportunity to meet up with peers from both industry and academics and establish a scientific network among them. Conference was successful because of our scientists, researchers and participants from around the globe. This Gynaecology conference was provided a gathering of trade of knowledge among researchers, doctors and gynaecologists to introduce and presentation about their constructive, observational test or hypothetical work in each part of Reproductive health hence redesigning the quality and organizations to the relevant research thus redesigning the standard and organizations to the relevant analysis works.

The conference was initiated with the Excellencies of the keynote speakers.

- Liane Deligdisch, Icahn School of Medicine at Mount Sinai, USA
- Michael J Sinosich, Douglass Hanly Moir Pathology, Australia
- Wassil Nowicky, Nowicky Pharma/Ukrainian Anti-Cancer Institute, Austria
