### Conference Announcement

The "24th World Congress on Nanomaterials and Nanotechnology" hosted by conference series with the theme "Expanding trends in the field of Nanomaterials and Nanotechnology" was successfully executed during July 12-13, 2018 Bangkok, Thailand. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Plant Science and Bio Technology.

The conference commenced with the presence of worthy Keynote forum and among the notable ones, few are listed below.

The route to Nanomaterial manufacturing Incorporating Nanoparticle Beam deposition by Tetsuya YAMAMOTO Kochi University of Technology, KOCHI, JAPAN.

Conference series is organizing "25th World Congress on Nanomaterials and Nanotechnology" which is going to be held on May 25-26, 2020 Osaka, Japan. The conference is going to cover the entire field related to Advanced Nanomaterials, Nano Electronics latest research and findings. The Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The Conference Highlights of 2020 are as follows: Application of Nanotechnology, Nanotechnology and its types, Molecular Nanotechnology Complications, Nano biotechnology and Nano toxicology, Nano medicine in Drug Delivery, Nanotechnology in Healthcare, Nano Pharmaceuticals & Nanoparticles & Advancements in Nano technology and Nanotechnology in Communications & Information Technology.

open the door for the latest requirements in Materials and Nano Science technologies.
