Conference Announcement

Expert Level

This time we are introducing the Nano Expert 2020 Award for those professionals who have contributed more than 15 years of their research life in Nanotechnology and chemistry technology field and published more than 200 articles in different journals. To boost them for more fruitful work in future we will honour them so that they can be presented as an ideal for our upcoming professionals.

Professional Level

We always bring opportunity to our professionals who are experts in Nano science and related field. This year Nanochemistry 2020 platform will honour you with Professional award for your excellent contribution in Nano science research field. A step for one more achievement is near you, just enrols yourself and we will select after review of set criteria. The designed criteria for this award is that you must have an experience of more than 10+ years in this field and have 150 published research articles in renowned journals

Scholar Level

Young generations are the future of the world or we can define them as the upcoming scientist, the scholar level award is especially defined the students, researchers, young research forum who are studying in the field of nanotechnology from the respected universities. The students pursuing their PhD or applying for PhD, graduating student's undergraduate students, researchers are eligible for this award. The participants will perform their work in front of the audience and our Organizing committee will nominate the students according to their presentation and the best one will be honoured by the Scholar Award.

Women Scientist

Nowadays, women are very successful in every field. They have proven that not only Men but women can also do anything and become successful with their hard work and smart work. The women scientist award define all the women attending Nanochemistry 2020 working in the field of Nanotechnology or working in the Nano industries, Pharmaceutical Industries, Student, Researcher, Professor,

Outstanding Speaker

This honour handle for Professors, Associate Professors, Lectures, Business people who will show their assignments, strategies, and plans that have been executed to improve long stretch enormity in Nanochemistry and Nano technology. All the Plenary Speaker the individuals who have wonderful information in the field of Nano physics and nanotechnology with beyond what 10 years of experience can designate for this honour. You can choose meriting the reword through online.

Best Keynote

This Award is seeing for members who will show their undertakings, strategies, and plans that have been executed to improve entire arrangement importance in Nanochemistry and Nanotechnology. All the Keynote Speaker the people who have splendid and brilliant information in the field of Nanophysics and nanotechnology with over 20 years of experience and 200+ publications can be named for this honour. You can pick the award through on the web.

Best Poster Presentation

A poster presentation define your research work in the form of poster means the poster should be a unique which will draw the attention of the people and does not need of any explanation. As the name suggest the best poster will be awarded to the participant presenting the poster in the nanotechnology field.

Outstanding Thesis

The Outstanding thesis award is for the individual who will publish their full article content in our conference Proceedings. All the articles will be reviewed by our conference Organizing committee and they will select the best of the article amongst them in Nanotechnology and Nanochemistry. This award is for the individual who will participate in the conference and as well as for the individual not participating in the conference. The organizing committee will hand over this award to the finest article.
