

2020 Conference Announcement for 14th International Conference on Materials Science & Technology

Agumba John Onyango

Professor, Department of Physics, St. Albert Ludwigs University-Freiburg, Germany, E-mail: agumba.john@gmail.com

"[14th International Conference on Materials Science and Technology](#)" is a prestigious event organized with a motivation to provide an excellent international platform for the academicians, researchers, engineers, industrial participants and budding students around the world to express their research findings with the global experts. [Materials Technology 2020](#) will be held in Miami, USA during March 25-26, 2020. It likewise gives a chief interdisciplinary stage to specialists, professionals and instructors to introduce and talk about the latest developments, patterns, and worries just as common-sense difficulties experienced and arrangements received in the fields of Materials Science and Technology. The meeting would offer countless welcomed addresses from prestigious speakers everywhere throughout the globe. The Best paper grants will be given for the papers made a decision to make the most noteworthy commitment to the meeting. The key aim of [Materials Technology 2020](#) is to give chance to the worldwide members to share their thoughts and involvement face to face with their companions expected to join from various parts on the world. What's more this social occasion will assist the representatives with establishing examination or business relations just as to discover global linkage for future joint efforts in their vocation way. We trust that [Materials Technology 2020](#) provides the result which will prompt noteworthy commitments to the information base in these forward-thinking logical fields in degree.

The main sessions included in the conference are as follows:

- Material Science and Technology
- Advanced Materials
- Nano Technology
- Ceramics and Composite Materials
- Metals and Metallurgy
- Bio Materials and Bio Devices
- Materials Chemistry
- Optical Materials
- Biosensors and Bio Electronic Materials
- Electronic Materials
- Graphene and 2D Materials

Related Journal:

- <https://www.scitechnol.com/polymer-science-applications.php>

- <https://www.scitechnol.com/metals-research.php>

Target Audience:

- Researchers
- Scientists
- Directors of Research Laboratories
- Material Science Engineers
- Mechanical Engineers
- Professors
- Design Engineers
- Students
- Managers & Business Intelligence Experts
- Research students and Research Institutes
- Advertising and Promotion Agency Executives

Meetings International (Meetings Int.) is a global leader in producing high quality conferences, meetings, workshops and symposia in all major fields of science, technology and medicine. Meetings Int. supports broad scope research and peer review at a broad range of specialists around the world. The key strategic objective of Meetings Int. is to communicate science and medical research between academia, and industry. All major conferences of [Meetings International](#) are accredited with Continuing Professional Development (CPD), Continuing Education (CE), and Continuing Medical Education (CME) Credits.

For more assistance you can visit: <https://www.meetingsint.com/conferences/materials-technology> To get detailed information about conference and the registration, download the brochure at <https://www.meetingsint.com/conferences/materials-technology/conference-brochure>

[Materials Technology](#) gathers all the global leaders in material science to share and exchange the theoretical and experimental studies and research related Materials Science, Nanotechnology, Chemistry and Physics. It held at Pacific Gateway Hotel Vancouver, Canada during April 18-19, 2019. The Organizing Committee Members are Assistant Professor **Aman Ullah**, University of Alberta, Canada; Professor **Dongling Ma**, National Institute of Scientific Research, Canada; Assistant Professor **Himanshu Verma**, Nicholls State University, USA; Professor **Norbert Hampf**, University of Marburg, Germany; Chair Person **Donglu Shi**, University of Cincinnati, USA; Professor **Kunkun Fu**, Tongji University, China; Professor **Osman Adiguzel**, Firat University, TURKEY; Research director **Georges Bouzerar**, CNRS & Universite Lyon, France; Senior Lecturer **Yan Huang**, Brunel University UK; Professor **Abdelilah Chtaini**, University Sultan Moulay Slimane, Morocco and many more speakers and delegates.
