Announcement

Meetings International hosted the event "Agriculture 2019" which was held in London, UK during October 22-23, 2019. We had successfully completed the event with various talks and sessions that run on the theme" Developing patterns in Agriculture and Horticulture". Agronomists, Ph.D. students had shown their interest in attending this esteemed Agriculture Congress and had a scientific discussion related to their topics and research with their co-researchers on this global platform.

The conference was started with Keynote session on Prospects for investment development in the hemp market in Poland – in practical and legal terms by Patrycja G. Bartosz Burdiak, Orbis Cannabis, Poland; Geography and geology, real ecological resources of the wine territory: The case of the alto adige DOC wine region in Italy by Carlo Ferretti, Geo Identity Research, Italy; Natural variation and selection for contrasting N-use efficient eggplant genotypes by key morpho-physiological traits by Stella Agyemang Duah, Szent Istvan University, Hungary; Monitoring of pesticide content in arable soils of Poland by Aleksandra Ukalska-Jaruga, Institute of Soil Science and Plant Cultivation, Poland; Sustainability goals and how to reach 2025 by Christiane Waldron, Kaneka Americas Holding, USA;

All the conference sessions were mainly focussed on the major topics Agriculture Engineering, Agriculture and Food Security, Plant Science, Agribusiness, Agronomy and Crop Science, Precision Agriculture and Environment, Agroforestry and Landscaping, Soil Science and Water Management. Speakers showed their interest in showcasing the rapid developments in agricultural science research. This Agriculture Event stands as an excellent platform to discuss with your co-researchers and students.

5th International Conference on Agriculture and Horticulture welcomes all the Agronomists, Horticulturalists, Agricultural Engineers, Researchers, Young Individuals and industrial experts working in the fields of Agriculture, Agribusiness, Agronomy, Poultry and Horticulture to this upcoming meeting in Hong Kong, China during July 22-23, 2020. The conference is organised on the theme "Developing patterns in Agriculture and Horticulture" which invites all enthusiastic participants to gain International experience within agricultural research and its Industrial sphere.

Economic growth and industrialization of a nation is inextricably linked to the continuous availability, access, diversity and modernization of its agriculture sector. Agriculture in fact plays a vital function in whole goals and

endeavours to attain fiscal development. A lot of the present day's developed economies, initially struggled to make their agricultural sector stronger. The states at a priority basis supply monetary help to their farmers, researchers and scientists with plan to boost their agricultural inventions still further. The significance of agriculture in human life is significant. Agriculture and agricultural products are essential for us. Food, energy, medicine and so many things we are able to get from agriculture. This conference seek to bring all such scientist, Noble Laureate, researcher, research scholar, students and people together who are involved in this field and provide them to discuss about their innovation, exchange ideas and interaction with each other.

Agriculture Conference is going to help people who are directly or indirectly related to Agriculture & Horticulture industry and academia. Through Agriculture 2020, people can share their views, ideas and can improve their knowledge about the advanced techniques in Agriculture field. Agriculture Congress empowers to direct a workshop, symposium and presentation to raise new outcomes in the Agricultural fields and other related parts of agribusiness.
