Conference Announcement on Pharma Forum 2020

We are pleased to welcome you to the "35th World Pharmacology and Toxicology Forum" after the successful completion of the series of Pharma Forum Congress. The congress is scheduled to take place in the beautiful city of Tokyo, Japan on September 21-22, 2020. This Pharma Forum 2020 conference will provide you with an exemplary research experience and huge ideas.

The perspective of the [Pharmacology Conference](#) is to help researchers to understand how medicinal techniques have advanced and how the Pharmaceutical field has developed in recent years.

[Pharma Forum 2020](#) is organized with an added focus on the application of pharmacological principles and quantitative methods in the real human patient's population to improve the health care.

[Pharmacologists](#) have access to enough outpatients for clinical care. Their responsibilities to patients are not only restricted to the analysis of adverse drug effects, therapeutics and toxicology but also includes the study of cardiovascular risks, perioperative drug management and psychopharmacology.

We hope this Congress provides an excellent opportunity to share your best practice initiative, research project, or provide continuing education as it relates current topics and advances around the industries and field of [pharmaceutical](#) and therapeutic research. Pharma Forum 2020 provides participants breakout sessions highlighting clinical projects, education, and research studies. This conference also includes interactive sessions and keynote panel discussions.

To enhance the field and make people aware of it. The organizing committee decided to hold a conference on [Pharmacology](#) and [Toxicology](#) which is one of the fast growing and developing areas of Pharmaceutical sciences.

People who have missed attending the past conference are most welcome to present your research ideas at the [Pharma Forum 2020](#) conference. This conference will help you improve networking with eminent people in the field of Pharmacology and Toxicology.
