This meeting gives a splendid chance to talk about the most recent advancements latest developments within the field. Pathology Congress 2020 will concentrate on the most recent and exciting innovations in every aspect of research offering an interesting opportunity for pathologists across the globe to meet, arrange, and discuss new logical advancements. On behalf of the Organizing and Advisory Committees we take great pleasure in welcoming pathologists, scientists, researchers, professors, research scholars, students and experts of application fields to attend 3rd European Pathology Congress. We invite all to join us at Venice for the 2020 edition of the European Pathology Congress and to discover the global city with both the ancient and modern attraction.

About City

The vaporetto is the public transport inside [Venice](#). The water buses are going up and down on the Grand Canal and to the surrounding islands. Perfect transportation in Venice if you need to go from one point to another. Alilaguna is another public transport service. It has a navigation network of five lines connecting the Marco Polo Airport terminal and the Cruise Terminal to the centre of Venice, the Lido, Murano and Punta Sabbioni. Education in [Italy](#) is compulsory from 6 to 16 years of age, and is divided

into five stages: kindergarten, primary school, lowersecondary school , upper secondary school and university .Education is free in Italy and free education is available to children of all nationalities who are residents in Italy. Italy has both a private and public education system. However, the quality of the public schools is also higher compared to the private schools, in terms of "educational and labour market outcomes".
