

Past Conference Report- Regenerative Medicine 2020

The huge success of the Regenerative Medicine 2020 has given us the hope to bring the gathering altogether one more time. Allied Academies proudly hosted the “3rd Global Conference on Tissue Engineering and Regenerative Medicine, Stem Cell Research” during June 29-30, 2020 as Webinar. The conference was focused on Tissue Engineering and Regenerative Medicine with the theme to “Innovate, Integrate & Motivate with Tissue Engineering and Regenerative Medicine”. The meeting involved a vicinity of comprehensive discussions on recent and latest subjects related to Tissue Engineering, Regenerative Medicine, Stem Cells, Scaffolds in Tissue Engineering, Biomaterials, 3D Bio printing Techniques and Bone Tissue Engineering etc.,

Special Thanks to the speakers who contributed for the successful accomplishment of the event:

Keynote Presentation

Title: Promises and future of bio-printing technic in cosmetic evaluation

Maite Rielland, L’Oreal, France

Title: 3D hydrogels and bio-inks for realistic in-vitro modelling and bio-printing

Elia Lopez-Bernardo, Biogelx Ltd, United Kingdom

Allied Academies offers its heartfelt appreciation and warm regards to Organizing Committee Members, various outside experts, company representatives and is obliged to other eminent personalities who entwined with Allied Academies and supported the conference in each and every aspect, without which the conference would not have been possible.

Regenerative Medicine 2021 extends the heartiest welcome to proficient delegates, scientists, professors, students, young researchers, business executives, scholars, chemists and professionals across the globe to be a part of our event through your Keynote speeches, exhibitions, oral and poster presentations that outline the highlights of the conference “Tissue Engineering, Regenerative Medicine and Stem Cell Research towards Healing, Restoration and Anti-aging”.

Your rejoining is our inspiration; keeping this in mind and being witnessed the triumph of Regenerative Medicine 2020, Allied Academies would like to announce the commencement of the “4th Global Conference on Tissue Engineering and Regenerative Medicine, Stem Cell Research” (Regenerative Medicine 2021) on March 22-23, 2021 at Rome, Italy. We welcome all the eminent researchers, students and delegate participants to take part in this upcoming conference to witness invaluable scientific discussions and contribute to the future innovations in the fields of Tissue Engineering and Regenerative Medicine. The main theme of the conference is to comprehend the “Novel Insights & Innovations in Stem Cell Research and Regenerative Medicine”.
