

Pediatrics 2021: It is our great pleasure to invite you to participate in the Webinar on Pediatrics and Neonatology which will take place during April 26, 2021, GMT+1 timings. The dedicated conference theme is: Modern Techniques and Therapies in Pediatrics and Neonatology. The purpose of the conference is to bring together surgeons, nutritionists, neonatologists, experts in child development and other specialists to discuss the challenges of the interplay between Nutrition, Neonatology and Pediatrics in the pediatric age groups. This meeting will enable exchange of ideas and knowledge between different disciplines for facilitating research and clinical interdisciplinary collaborations focusing on pediatrics and neonatology. Let's join hands for the future of this world, for the Next-gen of mankind, for the prospective and collective efforts to change what is within our reach and means. Our collaborative efforts have the power to change the destiny of those tiny little kids who look up to us, Pediatricians, Neonatologists, Nutritionists, surgeons and all of us who deal and interact with children.

The Sessions Includes: Pediatrics, General and Clinical Pediatrics, Neonatology and Perinatology, Child Brain Development, Preterm-birth Complications and neonatal Intensive Care, Child Nutrition and Development, Pediatric Immunology and Infectious Diseases, Pediatric Allergy and Respiratory Disorders, Breast Feeding, Pediatric Hematology and Oncology, Pediatric Cardiology, Pediatric Surgery and Oncology, Pediatric Mental Health and Psychology, Child and Adolescent Obesity, Pediatrics Vaccines and Immunization, Pediatric Critical Care and Emergency Medicine, Child Abuse and Prevention, Pediatrics Rehabilitation, Pediatric Medical Emergencies, Pediatrics HIV Infection, Pregnancy and Child Birth, Nurses role in Pediatrics, Autism/ADHD/Anxiety.

Our Organizing Committee includes Renowned Scientists, Researchers and Experts in the fields such as Emily Brockbank, UK, Gwenyth Fischer, USA, Nathalie Rivard, USA, Patrick Pladys, France, ROBERT E Cilley, USA, Stephane Bolduc, Canada. By seeking suggestions from our committee members Pediatric Nutrition 2020 conference is been designed with 15 sessions which comprises of all topics in the field of pediatrics and neonatology. All the submission towards surgery conference is rigorously peer reviewed to ensure to accept high quality submissions by the committee members who are well experienced in their field and from various countries around the globe. If you are looking for a global exposure for your novel research ideas and services, then this conference would be the right place for you. As we are one of the world's leading specialist in organizing scientific conferences, workshops, symposia and exhibitions Internationally in different fields like Medical, Pharma, Engineering, Science, Technology and Business attracting more than 25 Million+ Visitors, 25000+ unique visitors per conference and 70000+ page views for every individual conference would help in quantifying our presenters research and biography visibility to the online communities and get recognized worldwide. As we're seeing the impact of COVID-19 (Coronavirus) across healthcare globally. In this conference various eminent personalities will be sharing their clinical expertise, and professional insights about COVID-19 as well as about neonatal pediatric nutrition research to provide you with recommendations to optimally manage the Euro Pediatrics Conference of these neonatal patients.
