

Article Submission Instructions: Research and Reports on Metals (RRMT)

Samuel Frimpong

Missouri University of Science and Technology, USA

Research and Reports on Metals (RRMT) brings articles in all areas related to metallurgy research. RRMT welcomes the submission of manuscripts that meet the general criteria of significance and scientific excellence. Papers will be published approximately 15 days after acceptance.

Submission of an Article: In order to reduce delays, authors should adhere to the level, length and format of the SciTechnol Journals at every stage of processing right from manuscript submission to each revision stage. Submitted articles should have a 300 words summary/abstract, separate from the main text. The summary should provide a brief account of the work by clearly stating the purpose of the study and the methodology adopted, highlighting major findings briefly. The text may contain a few short subheadings of no more than 40 characters each.

Article Processing Charges: Research and Reports on Metals follows Open Access mode of publication with the Article Processing Charges (APC) of Euro €462.

APC includes peer-reviewing, editing, publishing, archiving and other costs associated with publication of the articles. However, there are no submission charges. Authors are required to make payment only after their manuscript has been accepted for publication.

Note: All the published articles are in double-columned pages.

If authors wish to retract their paper after rigorous review and revisions, he/she will be labelled to pay 10% of the total expenses on their article as a fee for processing. Since, the review process requires input of Editors, Reviewers, Associate Managing Editors, Editorial Assistants, Content Writers, Editorial Managing System & other online tracking systems to en-

sure that the published article is of good quality and is in its best possible form.

Individual waiver requests will be considered on a case-by-case basis and for authors from low-income countries.

Benefits: Benefits of Open Access include greater visibility, accelerated citation, immediate access to the full text versions, higher impact and authors retain the copyright to their work. All open access articles are published under the terms of the Creative Commons Attribution (CC-BY) license. It also allows immediate deposit of the final published version in other repositories without restriction on re-use.

Formats for SciTechnol contributions: SciTechnol accepts various formats of literary works such as research articles, reviews, abstracts, addendums, announcements, article-commentaries, book reviews, rapid communications, letters to the editor, annual meeting abstracts, conference proceedings, calendars, case-reports, corrections, discussions, meeting-reports, news, orations, product reviews, hypotheses and analyses.

Cover Letter: All the submissions should be accompanied by a cover letter consisting of 500 words or less and briefly stating the significance of research, agreement of authors for publication, number of figures and tables, supporting manuscripts, and supplementary information.

Also, include current telephone and fax numbers, as well as postal and E-mail address of corresponding author to maintain communication.
