Submission guidelines and registration prices information for Speakers and Delegates are posted on the Nursing Care website at <https://nursingcongress.conferenceseries.com/>. Online entries will be accepted from November 01, 2019- May 07, 2020.

Nursing Care 2020 will be held in Toronto, Canada during May 08-09, 2020.

Nursing Care 2020 aims to provide a platform where academics and practitioners from cross-disciplinary fields from education, nursing and health care, and business can come together and collaborate. The event will encourage the exploration of the potential synergies that may arise from pooling the different perspectives. We invite you to submit papers on Nursing and Nursing Care. Poster and oral presentations, and thesis presentations will be included in the Conference Program. Nursing Congress covers all aspects of Nursing, and broadly encompasses Nursing Education, Nursing practice, Healthcare Management, and Healthcare Studies.

*Are you willing to showcase research results and recent objectives achieved? During Nursing Care 2020, all participants will be able to provide at the Nursing registration desk a poster outlining your main results. Why?

Because you will have the chance to present them at the Knowledge exchange session (May 08 forenoon) and meet the authors of the speech you find most interesting during the final Networking Session!

Venue:

Toronto is the provincial capital of Ontario and the most populous city in Canada, with a population of 2,731,571 as of 2016. Current to 2016, the Toronto census metropolitan area (CMA), of which the majority is within the Greater Toronto Area (GTA), held a population of 5,928,040, making it Canada's most populous CMA. The city is the anchor of the Golden Horseshoe, an urban agglomeration of 9,245,438 people (as of 2016) surrounding the western end of Lake Ontario. Toronto is an international centre of business, finance, arts, and culture, and is recognized as one of the most multicultural and cosmopolitan cities in the world.

Nursing Care is an international multidisciplinary field concerned with all aspects of interaction between Nurses, Patients and Doctors. Major disciplines include: Registered Nurse, Travel Nurse, Neonatal Nursing, Oncology Nursing, Cardiac Nursing, Pediatric Nursing, Geriatric Nursing, and Family Nursing
