

Challenges in health tourism, Stop Political Bias in Health Tourism

Hasti Talebi

Islamic Azad University, Iran

Abstract:

These days I feel lack of something in the health tourism and generally in tourism field that I want share it with the people all around the world and it is the meaning of "Peace" It's not just a fiction but also; we must give meaning to this word. These days my country, Iran; passes bad days because people don't know that all of Iranians honouring peace and love all human around the world. My country loves all of tourist from all kind of nations. But people judge us affected by poisoning news that medias share. This saddens all of my colleagues who work in tourism Industry in Iran. I hope all of us act to the word "peace" not just talk about. I wish we could live with each other from our hearts. Let's help to make it true.

Biography:

Hasti Talebi is a nurse who graduated from Karaj Azad University from Iran. She works in hair transplant clinic. She also had creative ideas in the health field that they can help to enhance the quality of treatment process.
