2020 Conference Announcement

Lexis Conferences is pleased to welcome everyone to attend our forthcoming Global Meet on Clinical Oncology which is going to place during October 30-31, 2020 in Chicago, USA. The meet will focus on the theme “Emerging techniques, discoveries and innovations in the field of Clinical Oncology”

Clinical Oncology 2020 will provide right platform for the interaction between the experts around the world. The conference aims in gathering renowned scientists, professors and research professionals across the globe under one roof and organize a healthy discussion so that the researchers and authors can present their work at the conference. The conference will focus on wide range of sessions and Tracks which provides the participants and all the attendees with an opportunity to extend their information in the subject and interact with professionals within the field of Cancer & Clinical Oncology.

Clinical Oncology 2020 aims to provide a platform where the key strategic objective of this meeting is to communicate science and medical research between academia, and industry. Through inspiring sessions and whims of networking, you will learn to be even more audacious and bold than you are now and free to grow your mind, grow your business, and grow your bottom line. We can relieve you of the time and resource-draining elements of the events that you plan to hold. Poster and oral presentations, and thesis presentations will be included in the Conference Program.

The conference was focused on Clinical Oncology during October 30-31, 2020 at Chicago, USA. The meeting engrossed a vicinity of comprehensive discussions on novel subjects like Cell Therapy, Clinical Oncology, Gynecologic Oncology, Hematological Disorders, Leukocytes and Hematopoiesis, Ocular Oncology, Sickle Cell Disease, Thrombosis and Vascular Biology, Multiple Myeloma, Interventional Oncology, Hemostasis, Allergooncology, Acute Leukemia and Myelodysplastic Syndrome, Anemia and Coagulation, Cord Blood Transplantation, Medical Oncology, Pediatric Oncology, Radiation Oncology, Multiple Myeloma, Hypercoagulability, Leukocytes and Hematopoiesis, Surgical Oncology, Platelet Physiology and Function.

We can relieve you of the time and resource-draining elements of the events that you plan to hold. This conference is intended to deliver a miscellaneous and

current education that will keep medical professionals up to date with the latest methodologies, strategies and the present update in the field of Clinical Oncology.

The goal of organizing the Clinical Oncology 2020 is to provide exposure to technologies and to deliver information about research work proceeding on Clinical Oncology.

Clinical Cancer Meeting will be the platform for business delegates, B2B meetings, poster presentations, workshops, symposia and much more. Clinical Oncology meeting have grounded the best possible researchers in the field of Clinical & Surgical from diverse scientific disciplines and opened the channels for research funding opportunities and collaborations, and so will be upcoming.

About Venue:

Chicago is the third-most populous city in the United States. With over 2.7 million residents, it is the most populous city in the state of Illinois and the Midwestern United States, and the county seat of Cook County. The Chicago metropolitan area, often referred to as Chicagoland, has nearly 10 million people and is the third-largest in the U.S.

Chicago was incorporated as a city in 1837, near a portage between the Great Lakes and the Mississippi River watershed, and grew rapidly in the mid-nineteenth century. The city is an international hub for finance, commerce, industry, technology, telecommunications, and transportation: O'Hare International Airport is the second-busiest airport in the world when measured by aircraft traffic; the region also has the largest number of U.S. highways and rail road freight. In 2012, Chicago was listed as an alpha global city by the Globalization and World Cities Research Network, and ranked seventh in the world in the 2014 Global Cities Index.

Chicago, on Lake Michigan in Illinois, is among the largest cities in the U.S. Famed for its bold architecture, it has a skyline punctuated by skyscrapers such as the iconic John Hancock Center, 1,451-ft. Willis Tower (formerly the Sears Tower) and the neo-Gothic Tribune Tower. The city is also renowned for its museums, including the Art Institute of Chicago with its noted Impressionist and Post-Impressionist works.
