

Short Communication Note on Journal of Clinical Images and Case Reports

Mohammad Reza Movahed

Journal of Clinical Images and Case Reports proudly announce the successful journey of last four years. Clinical Images and Case Reports got coined and editorial activity has started in the year 2016.

With immense support from the globalised author's we have successfully completed the third volume with more numbers of papers published in a year (2019) for JCICR.

2019 has the highest number of papers for Clinical Images and Case Reports which is the high five count so far for the journal, with the papers published from Japan, USA, Taiwan, India, UK, etc

Journal has been achieving the enormous global popularity and able direction under the editorial ship of Dr. Mohammad R. Movahed, myself as editor-in-chief with stringent commitment we stepped a head in the scientific community by publishing the papers in various diversified fields such as case reports and clinical studies in the field of Cardiology, Pulmonology, Daibetes, Nephrology, Urology, Pedaitrics, Surgical Oncology and etc.

Few papers have strengthen our journal standards by publishing those such as entitled by "Eversense TM Sensor and Transmitter - Interesting Radiological Images Seen on Plain X-rays of Upper Arms" which is a patented work written by Thanh D. Hoang (USA), "Clinical Images: Extrapleural Hemorrhage - An Unrecognized Cause of Sudden Chest Pain" written by Takeaki Sato has brought us the enhances readers count for our journal.

We are further glad to announce that the Journal has applied for the indexing and ISSN, with the positive results yielding in near future the journal is also planning in bringing many editorials activities with our authors, editors and reviewers.

Objectives of 2020 for Journal of Clinical Images and Case Reports

Planning in big for the year 2020 for the Journal of Clinical Images and Case Reports, with superior and enhanced promotional activity of SEO and marketing by having the strategies enhanced, interns of creation of ORCID, indexing request for the Pubmed, SCI.

Simultaneously focussing on the social media promotion of all the published articles to outreach of the articles in more than the usual that will lead in more globalised visitors for the papers. Majorly our journal is planning to make an editorial board meeting with the esteemed editors of our journal through webinar in order to discuss the strategies for putting forward the journal in all aspects.

Marketing plan has been initiated for the journal and the grassroots has to get enhanced by google ads.

Classification

The biggest advantage for the journal in having a broader classification, which falls in multiple categories, Medicine with various topics such as Internal Medicine and Surgery, etc

Clinical Images and Case Reports journal also considers the papers from all sub-disciplines and aspects of cardiology, hepatology, and urology, also with surgical aspects. Manuscripts will be published online as soon as they are accepted, which will reduce the time of publication. Because there are no space limitations or favoured topics, all papers, within the scope of the journal, judged to be sound by the reviewers, will be published.

Also we should thank individually to our editors, reviewers and authors who is giving their consistent support, especially our editor in chief of the year 2019, Dr. Tomas Salerno who is designated with Executive Editor is very keen and active in terms of the review process of all received articles.

Also Dr. Burton M Altura, PhD and Dr. Mordechai S Nosrati, MD for their stringent support in soliciting the papers form their colleagues and also acting as Reviewers for many articles.

Conclusion

In with summarising this editorial with the strategies planned for the year 2020, in terms of Social media and marketing promotions of the journal with the support of editors and we also planned for arranging the webinars and also editorial board meetings through video conference for editors and certifying them in end, with the display of glances. Moreover as the pandemic Covid-19 has devastated the entire world and there is a chance of pulling all the recovered cases and the persons experience and pulling into the journal and thereby we can showcase the attack of Covid 19 on the entire world for the global awareness.
