

Conference Announcement

2nd International Conference on Microbiology June 14-15, 2021 | Webinar Conference Announcement on Microbiology

Lizzie Madron

Conference Announcement of Asian Microbiology 2021

Conference Series conducting “2nd International Conference on Microbiology” during June 14-15, 2021 Webinar with theme of “[Advance research in Microbiology](#)”.

The Main objective of Asian Microbiology 2021 is to bring the new research aspects and to debate the various sorts of therapies in Microbiology. Aimed to supply a chance for all the Attendees to satisfy, interact and exchange new ideas within the various areas of Microbiology.

[Asian Microbiology 2021](#) gives awareness on the fitness and therefore the refore the sports wise medications and the sorts of rehabilitations.

We welcome all the delegates and research professionals of Virology, Microbiology, Biotechnology, vaccine development and from round the globe for this 2-day international conference event on June 14-15, 2021 Webinar where all the aspects associated with Microbiology will be discussed. Asian Microbiology 2021 will offer a distinct experience with number of Keynote/Plenary Talks and Poster Presentations by eminent personalities. All honourable authors kindly contribute the Webinar Conference through submissions of their analysis abstracts, papers and e-posters altogether area of Virology, Vaccines and Microbiology are warmly invited for [presentation](#) at the conference.

Press Release of Virology Meet 2021:

Dear Speakers, Delegates, Exhibitors & Sponsors, Conference Series is [honoured](#) to welcome you all to the “2nd International Conference on Microbiology” on June 14-15, 2021. The webinar is going to held with the theme “Advance research in Microbiology”.

This Microbiology Conference will specialize in providing the recent updates, research, guidance and policy discussion for professionals and young generation within the field of Microbiology. we've an exciting program at this conference which will allow members to reflect upon and celebrate our past accomplishments, renew [friendships](#) and extend our [networks](#), and jointly explore current and future research directions. We hope that you simply will have a productive and fun-filled time at this very special conference.

We considerably anticipate seeing you in Webinar on June 14-15, 2021

Why you ought to be Interested:

The 2nd International Conference on [Microbiology](#) June 14-15, 2021 Webinar is that the premier event for Microbiology Treatments in Barcelona and can provide valuable opportunities for connecting with key influencers.

Benefits in attending:

To foster discussions, share expertise and exchange knowledge and best practices in the least levels of the healthcare spectrum

- To encourage [collaboration](#) and enhance interactions at a worldwide level
- Meet a variety of specialists actively practicing within the field
- Strengthen your profile and position your organization as a key industry figure
- Develop new partnerships and networks with key decision makers/influencers
- Open doors for your organization to attach and develop strategic relationships during a neutral and relaxed sales environment
- Get access to targeted audience
- Brand Exposure – Promote your company’s message, products and services through a national Conference marketing campaign
- First hand live demonstrations to delegates

To showcase new healthcare technologies and solutions in an intimate setting focused specifically on Microbiology. All Submitted papers in Asian Microbiology 2021 are going to be published in Journal of Applied Microbiology or Journal of Medical Microbiology regarding the subject .Asian Microbiology 2021 may be a unique and [exciting](#) opportunity, are designed in an interdisciplinary manner with a mess of tracks to showcase the new technology, the new products, and therefore the service your industry may bid to a broad international audience. It covers tons of topics and it'll be a pleasant platform to showcase their recent researches on Microbiology. Asian Microbiology2021, host presentations from experts across the planet within the field of microbiology and anticipates quite 200 participants round the globe with thought provoking Keynote lectures, Oral and Poster presentations. The attending delegates comprise Editorial Board Members of associated global journals.

It specialize in discovery and innovation in various aspects of Airborne Disease, Biological Contamination, Blood-borne Disease, Clinical Bacteriology, Clinical Mycology, Clinical Virology, Co-infection, Copenhagen Consensus, Disease Diffusion Mapping, Emerging Diseases, Epidemics, Foodborne Illness, Globalization and Disease, Human Micro biome Project, Infection Control, communicable disease Dynamics, communicable disease Eradication, Medical Bioinformatics for Infectious Diseases, Neglected Diseases, Nosocomial Infection, Pandemics, Pathology, Spatiotemporal [Epidemiological](#) Modeler, Threshold Host Density, Tropical Disease, Waterborne Diseases, Zoonotic Infections, etc. Original Article, Reviews, Mini Reviews, Short Communications, Case Reports, Perspectives/Opinions, Letters, Short Note and Commentaries are accepted for publication.

All articles published within the journal are subject to a rigorous referee process. It encourages authors to publish their experimental and theoretical leads to detail to disseminate the updated research findings.

The Conference highlights will include Microbiology, Antimicrobial Resistance, Micro biomes, Food Microbiology, Biotechnology and Synthetic Biology, Pathogenicity and Virulence, Environmental Microbiology, [Applied Microbiology](#), Cellular microbiology, Microbiology techniques, Pure Microbiology, Evolutionary Microbiology, Molecular Microbiology.

Europe:

German Society for Virology, International Society for Antiviral Research, International Union of Microbiological Societies, Society for General Microbiology, European Society for Veterinary Virology, [Dutch Society for Medical Microbiology](#), European Society of Clinical Microbiology and Infectious Diseases, Federation of European Microbiological Societies (FEMS).

Asia-Pacific:

International Society for Applied Phycology; International Union of Microbiological Societies; Microscopy Society (Singapore), [Singapore National Academy of Sciences](#); Japanese Society of Microbial Ecology, Asia Pacific Society for Marine Biotechnology; Committee of Asia Pacific Electron Microscopy Societies; Federation of Asia Pacific Microbiological Societies.

U.S.A:

IUMS International Union of microbiological societies, Southern California Branch of the American Society for Microbiology (SCASM), [American society for microbiology](#), SIMB-Society for industrial Microbiology and biotechnology, SFAM-Society for Applied Microbiology-London, Society for industrial microbiology.
