

## Conference Announcement

## 5th World Summit on Virology, Vaccines & Emerging Diseases May 24-25, 2021 | Webinar, Conference Announcement on Virology, Vaccines & Emerging Diseases

Lizzie Madron

### Conference Announcement

Conference Series conducting 5th **World Summit on Virology, Vaccines & Emerging Diseases** during May 24-25, 2021 Webinar with theme of “Advanced Research and Emerging Issues in the Field of Virology”.

The Main objective of [Virology Meet 2021](#) is to bring the new research aspects and to debate the various sorts of therapies in Vaccination and Emerging Infectious Diseases. Aimed to supply a chance for all the Attendees to satisfy, interact and exchange new ideas within the various areas of Virology.

Virology Meet 2021 gives awareness on the fitness and therefore the reform the sports wise medications and the sorts of rehabilitations.

We welcome all the delegates and research professionals of Virology, Microbiology, Biotechnology, vaccine development and Emerging Diseases from round the globe for this 2-day international conference event on May 24-25, 2021 Webinar where all the aspects associated with Virology will be discussed. Virology Meet 2021 will offer a distinct experience with number of Keynote/Plenary Talks and [Poster Presentations](#) by eminent personalities. All honorable authors kindly contribute the Webinar Conference through submissions of their analysis abstracts, papers and e-posters altogether area of Virology, Vaccines and Emerging diseases are warmly invited for presentation at the conference.

### Press Release of Virology Meet 2021:

Conference Series organizes the 5th World Summit on Virology, Vaccines & Emerging Diseases (Virology Meet 2021) which focuses the present innovations, researches and trends within the Vaccination and [Emerging Infectious](#) Diseases. Virology Meet 2021 points to several attractive scientific sessions which relates to the sector of Vaccination, Emerging Infectious Diseases, Virology, [Bacteriologists](#) and lots of more. **Virology Meet 2021** are going to be organized with the theme “Advanced Research and Emerging Issues in the Field of Virology” on May 24-25, 2021 Webinar.

Virology Meet 2021 will provide a chance to young researchers through the initiatives like Young Research Forum, Poster Presentation and Scientific Meetings.

All Submitted papers in Virology Meet 2021 are going to be published in Journal of Vaccines & Vaccination or Journal of Virology & Mycology regarding the subject. Virology Meet 2021 may be a unique and exciting opportunity, are designed in an interdisciplinary manner with a mess of tracks to showcase the new technology, the new products, and therefore the service your industry may bid to a broad international audience. It covers tons of topics and it'll be a pleasant platform to showcase their recent researches on Virology, [Vaccination Applications](#). Virology Meet 2021, host presentations from experts across the planet within the field of microbiology and anticipates quite 200 participants round the globe with thought provoking Keynote lectures, Oral and Poster presentations. The attending delegates comprise Editorial Board Members of associated global journals.

It specialize in discovery and innovation in various aspects of Airborne Disease, Biological Contamination, Blood-borne Disease, Clinical Bacteriology, Clinical Mycology, Clinical Virology, Co-infection, Copenhagen Consensus, Disease Diffusion Mapping, Emerging Diseases, Epidemics, Foodborne Illness, Globalization and Disease, Human Micro biome Project, Infection Control, communicable disease Dynamics, communicable disease Eradication, Medical Bioinformatics for Infectious Diseases, Neglected Diseases, Nosocomial Infection, Pandemics, Pathology, Spatiotemporal Epidemiological Modeler, [Threshold Host Density](#), Tropical Disease, Waterborne Diseases, Zoonotic Infections, etc. Original Article, Reviews, Mini Reviews, Short Communications, Case Reports, Perspectives/Opinions, Letters, Short Note and Commentaries are accepted for publication. All articles published within the journal are subject to a rigorous referee process. It encourages authors to publish their experimental and theoretical leads to detail to disseminate the updated research findings.

### Who Should Attend?

- Virology Students, Scientists
- Virology Researchers
- Virology Faculty
- Medical Colleges
- [Virology Associations and Societies](#)
- Research Labs
- Manufacturing Medical Devices Companies
- Deans and Professors
- CEO / CSO / COO
- CMO / Head of Scientific Affairs
- Head of Virology

The Conference highlights will include General Virology, Covid, Vaccination, Emerging Infectious Diseases, Viral Immunology and Pathology, Molecular virology, Food virology, Plant Virology, [Clinical Virology](#), Skin infection, Oral Virology, Viral Infections, Urinary Tract Infection (UTI), Veterinary Virology, Bacterial and Fungal Virology, Microbiology.

**Europe:** German Society for Virology, International Society for Antiviral Research, International Union of Microbiological Societies, Society for General Microbiology, European Society for [Veterinary Virology](#), Dutch Society for Medical Microbiology, European Society of Clinical Microbiology and Infectious

Diseases, Federation of European Microbiological Societies (FEMS).

**Asia-Pacific:** International Society for Applied Phycology; International Union of Microbiological Societies; Microscopy Society (Singapore), Singapore National Academy of Sciences; Japanese Society of Microbial Ecology, Asia Pacific Society for Marine Biotechnology; Committee of Asia Pacific Electron Microscopy Societies; Federation of Asia Pacific Microbiological Societies

**U.S.A:** IUMS International Union of microbiological societies, Southern California Branch of the American Society for Microbiology (SCASM), American society for microbiology, SIMB-Society for industrial Microbiology and biotechnology, [SFAM-Society](#) for Applied Microbiology-London, Society for industrial microbiology.
