### Conference

Lexis Conferences is pleased to welcome everyone to attend our forthcoming conference Cytology & Cytopathology which is going to place during November 23-24, 2020 in Miami, USA.

Cytopathology 2020 will provide right platform for the interaction between the experts around the world. The conference aims in gathering renowned scientists, professors and research professionals across the globe under one roof and organize a healthy discussion so that the researchers and authors can present their work at the conference. The conference will focus on wide range of sessions and Tracks which provides the participants and all the attendees with an opportunity to extend their information in the subject and interact with professionals within the field of cell, Cytology & Cytopathology.

Cytology and Cytopathology Congress one of the World's best stages on Pathology occasions will empower to advance the all-encompassing logical way to deal with approving existing and improvement of Cytopathologic and Histopathologic methods as to better comprehension of infections and conclusion. Cytopathology and Cytology gathering is set to observe a thrilling sessions in logical program which will concentrate on most recent developments in Cancer Cytopathology, Clinical and Molecular Cytopathology, Stem Cell Therapy and Anatomical Pathology, Diagnostic and Comprehensive Cytopathology, General Cytopathology and Immunocytochemistry, Cytopathology and Disease finding, Forensic Cytopathology, Genome Expression Profiling, Gene treatment, Bacterial and Microbial pathology Infection control, Veterinary Cytopathology, Gastrointestinal Cytology, Effusion Cytology, Lymphnode Cytology, etc.

The global histology and cytology market size is expected to reach USD 30.6 billion by 2026, based on this report. It is anticipated to extend at a CAGR of 13.7% during the gauge time frame. Expanding

occurrence of malignant growth combined with developing selection of cytological test because of its high unwavering quality and less obtrusive nature when contrasted with biopsy is probably going to drive the development.

Cytopathology Meeting will be the platform for business delegates, B2B meetings, poster presentations, Cytopathology workshops, Cytopathology symposia and much more. Cytopathology meeting have grounded the best possible researchers in the field of Cytopathology & Histopathology from diverse scientific disciplines and opened the channels for research funding opportunities and collaborations, and so will be upcoming.

### About Venue:

Miami, officially the City of Miami, is the seat of Miami-Dade County, and the cultural, economic and financial center of South Florida in the United States. The city covers an area of about 56 square miles (150 km<sup>2</sup>) between the Everglades to the west and Biscayne Bay to the east. Miami is the sixth most densely populated major city in the United States with an estimated 2018 population of 470,914. The Miami metropolitan area is home to 6.1 million people, the second-most populous in the south-eastern United States and the seventh-largest in the nation. The city has the third tallest skyline in the U.S. with over 300 high-rises, 55 of which exceed 490 ft (149 m).

Miami is a major center and leader in finance, commerce, culture, media, entertainment, the arts, and international trade. The metro area is by far the largest urban economy in Florida and the 12<sup>th</sup> largest in the United States, with a GDP of \$344.9 billion as of 2017. In 2018, Miami was classified as an Alpha level global city by the GaWC. In 2019, Miami ranked seventh in the United States and 31<sup>st</sup> among global cities in terms of business activity, human capital, information exchange, cultural experience, and political engagement. According to a 2018 UBS study of 77 world cities, the city was ranked as the third-richest in the United States and the eighth-

richest in the world in terms of purchasing power. Miami is nicknamed the "Capital of Latin America" and is the largest city with a Cuban-American plurality.
