A SCITECHNOL JOURNAL

I am pleased to mention that during the year 2019, all issues of volume 3 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online.

Journal of Nephrology & Renal Diseases during this year also brought out (Proceedings of Joint Event on 3rd World Nephrology Congress & 4th International Conference on Cancer Research) and Proceedings of 15th International Conference on Nephrology and Hypertension, which consisted of 40 abstracts.

During the calendar year 2019, JNRD received a total of 15 papers, out of which 5 articles were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 around 10 articles were subjected for publication after they are accepted in the peer review process. In the 2 issues of Volume 3 published during the year 2019, a total of 10 articles were published (at an average of 5 articles per issue) of which, articles were published from authors all around the world. A total of 30 research scientists from all over the world reviewed the 10 articles published in volume 3. Average publication lag time of an article was further reduced to 2-3 weeks. During the calendar year 2019, a total of 10 Reviewers joined the board of JNRD and contributed their invaluable services towards contribution as well as publication of articles.

I take this opportunity to acknowledge the contribution of Michael P Madaio during the final editing of articles published and the support rendered by the editorial assistant, Anissa Andrew in bringing out issues of JNRD in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JNRD, the office bearers for their support in bringing out yet another volume of JNRD and look forward to their unrelenting support to bring out the Volume 4 of JNRD in scheduled time.
