

2020 Conference Announcement

Editorial Announcement for Conference: 3rd World Biomarkers Summit

Alessandra Rossi

Post-Doctoral Scientist, Department of Molecular Biology at the University of Bologna, Italy, E-mail: alessandra.rossi10@studio.unibo.it

[3rd World Biomarkers Summit](#) is scheduled at Rome, Italy on April 22-23, 2020. The 2020 edition of the Biomarkers conference will move forward with the theme "Biomarker as a future protagonist". [Biomarkers 2020](#) concentrates on procuring emerging researches in the sector of medicine and health brought to us via applications of biomarkers. Scientists, Young researchers, pharmaceutical industrialists and medical professionals are expected to form a global networking through this conference thereby getting and letting explore the topic to a greater extent. This meeting deals with field of immunology, nutrition, epidemiology, cancer biology, targeted cancer therapies and cancer pharmacology, etc. Rome has been finalized as the venue for the summit and is full of tourists' attraction places. We welcome participants from all over the globe to join us for the summit as well as to explore the beautiful city.

The sessions of the conference are Biomarkers, Prognosis, Diagnosis and Prediction, Lifestyle and Medication, Cancer Therapies and Therapeutics, Immuno-Oncology, Molecular Genetics, Drug Development, Nanotechnology for Biomarkers, Emerging Therapeutic Biomarkers, Clinical Research & Biomarkers, Biomarker Testing, Advances and Future Perspective. The target audience included all the Stake Holders (both Academia & Industry) of the Sector, Researchers & Innovators, Experts Looking for Collaborative Work, Product Developers, Solution Providers, Sales & Marketing Professionals, Associations, Societies, & Professional Bodies, Funding Agencies & Fund Raisers, Management Bodies, Decision Makers. [Organising Committee Members](#) of Biomarkers 2020 congress assembles Prof. Diego F. Coutinho (Scientist, NYU Langone Health, USA), Dr. Kailash Chadha (Associate Professor, Roswell Park Comprehensive Cancer Center, USA), Dr. Alessandra Rossi (Research Scientist, University of Bologna, Italy), Dr. Michael Retsky (Emeritus Professor, Harvard TH Chan School of Public Health, USA), Prof. James E. Trosko (Professor, Michigan State University, USA).

The past conference of Biomarkers i.e.; International Conference on Cancer Research 2019 has been held during March 20-21, 2019 in Amsterdam, Netherlands. Few of the organizing committee members of this conference are Dr. Amal Fawzy (National Cancer Institute, Egypt), Prof. Z Barnea Burbea (Wolfson Medical Center, Israel), Dr. Alinda Chiu, Peninsula private hospital, Australia, Dr. John D Sullivan (Boston University, United States).

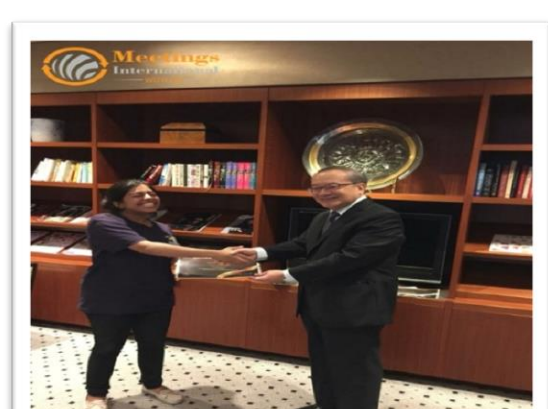

Theme of the conference "Biomarkers As a Future Protagonist" conveys the basic notion we are willing to

showcase to the world. **Biomarkers 2020** prioritizes the high end technologies used for human welfare and convenience. People from every genre i.e. the highly

classified professionals, budding industrialists and young innovators have a great deal in this as they will be having a chance for diversification and global communication. We believe Biomarkers 2020 will come out as an academic exploration and a platform full of public awareness. Biomarkers hold a latent position for the world of medicine and healthcare. This is the era of technology and every day is a day of new innovation and invention. Expertise increases day by day so as our expectations and lifestyle. We can hope for better tomorrow where we observe early detection possibly not only for cancer but for other diseases also.

Glimpses of Previous Conference
