

## Editorial Note for Nanomaterials and Molecular Nanotechnology

Ranjit \*

### Editorial Note

I'm happy to say that during the year 2021, all issues of volume 10 were successfully published online; expressing views of world's eminent researches. The Impact factor of Journal of Nanomaterials & Molecular Nanotechnology for the year 2020 was 3.761. During the calendar year 2020, Journal of Nanomaterials & Molecular Nanotechnology received a total of 80 papers, out of which 50 articles were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2020 around 30 articles were subjected for publication after they are accepted in the peer review process. In the 4<sup>th</sup> issues of Volume 10 published during the year 2019, a total of 5 articles were published (at an average of 5 articles per issue) of which, articles were published from authors all around the world. A total of 55 research scientists from all over the world reviewed the 30 articles published in volume 10. Average publication lag time of an article was further reduced to 2-3 weeks. During the calendar year 2020, a total of 49 Editors, 55 Reviewers joined the board of Journal of Nanomaterials & Molecular Nanotechnology and contributed their invaluable services towards contribution as well as publication of articles.

I would like to take this opportunity to thank Editor-in-Chief: Dr. Dennis W. Smith Jr. for his assistance in finalizing papers for publication and the editorial assistant Adina Bernice for her help in getting issues of Journal of Nanomaterials & Molecular Nanotechnology out on time. I'd also like to thank all of the authors, reviewers, the publisher, the advisory and editorial boards of Journal of Nanomaterials & Molecular Nanotechnology, and the office bearers for their continued support in bringing out Volume 10 of Journal of Nanomaterials & Molecular Nanotechnology, and I look forward to their unwavering support in bringing out Volume 10 of Journal of Nanomaterials & Molecular Nanotechnology
