Growth of Health and Medical tourism in India- A Future Perspective

Manoj Srivastava

School of Hotel Management, Manipal University Jaipur.

Abstract:

Healthcare, like food and shelter, has become a basic need of Humanity. India is developing into a good location to receive medical treatments and growing to be a leader in medical tourism. At an estimated growth of 30% each year, studies conducted by various government and private sector agencies in India estimate that medical tourism could be worth $2 to $2.5 billion US by 2020. Among all the factors contributing to the growth of medical tourism in India, foremost is the cost factor. The medical costs in India are one-tenth of the costs in western countries Encouraged by the incredible pace of growth exhibited by the industry, the Confederation of Indian Industry (CII) and McKinsey have predicted that the industry will grow to earn additional revenue of $3.2 billion by 2020.

Biography:

Prof. Manoj Srivastava Over three decades of experience in Industry & Academia, Food Production Research made 9 culinary based Limca Book of World Record. for which I was honored with Honorius Causa, As a professor in the field of hospitality, I have strived to incorporate innovative methods towards conducting Tangible research outcome, as well as making learning a joy for the students. The approach to creative learning is to enjoy the process of lectures, preparing class materials, and interaction with students. Guided around 29 projects with students, Got seed grant from MUJ for tangible research.
