

Dental Health: Current Research

Editorial

International Conference on Dental research Symposium on Dec-2021

Jofra A

Introduction

1. Quantifying ceramic resin strengthening by varying the resin elasticity. P HOOI*, O ADDISON, GJP FLEMING, Materials Science Unit, Dublin Dental School & Hospital, Eire.
2. Toxicity of some proprietary antibacterial products used as endodontic dressings. I GHEORGHIU*, R ILIESCU, N DIMCEVICI-POESINA, ALA ILIESCU, B DIMITRIU, A ILIESCU, "Carol Davila" Faculty of Dental Medicine, Department of Operative Dentistry, Bucharest, Romania.
3. Weibull analysis of three ceramic materials. M BORBA*, A DELLA BONA, PF CESAR, HN YOSHIMURA, CY OKADA, KA FUKUSHIMA, TV PEGORARO, University of Sao Paulo, Cidade Universitaria, Sao Paulo, SP, Brazil.
4. Biocompatibility of some antibacterial endodontic dressings in two human fibroblast cell lines. A ILIESCU *, I GHEORGHIU, ALA ILIESCU, R ILIESCU, B DIMITRIU, N DIMCEVICI-POESINA, "Carol Davila" Faculty of Dental Medicine, Bucharest, Romania.
5. A non-destructive method to determine critical flaw size of dental ceramics. K. TSUCHIYA*, B. TASKONAK, M. ITO, Indiana University School of Dentistry, Indianapolis, USA.
6. Effect of dental adhesives on the cell cycle of fibroblasts. EA KOULAOUZIDOU*, KT PAPAZISIS, G PALAGHIAS, M HELVATJOGLU-ANTONIADES, Aristotle University Thessaloniki, Greece
7. Colour changes of maxillofacial silicone elastomer due to extra-oral aging. MM HATAMLEH*, DC WATTS, Biomaterials Research Group, School of Dentistry, University of Manchester UK.
8. Are silorane compatible with methacrylate-based composites? S MOSER*, R HICKEL, N ILIE, Department of Restorative Dentistry, Dental School of the Ludwig-Maximilian-University, Munich, Germany.
9. Speed of removal and apical extrusion of different filling materials. M HAMMAD*, A QUALTROUGH, N, School of Dentistry, University of Manchester, UK.
