### Conference Announcement

"6th International Meeting on Traditional & Alternative Medicine" scheduled on June 22-23, 2020 at Osaka, Japan. The theme of Traditional Medicine Congress is "Exploring New Horizons in Traditional & Alternative Medicine". Traditional Medicine Meeting plans to provide a platform for all the researchers to share their cup of knowledge & research findings to support the need to discover and learn the efficacy and safety of herbal, traditional and alternative medicine in keeping the population healthy. Traditional & Alternative Medicine conference aims to assemble all the researchers who are involved in diverse disciplines of Traditional Medicine, Complementary Medicine, Alternative Medicine, Traditional Chinese Medicine, Unani Medicine, Acupuncture, Herbal Medicine and more. It includes a wide range of Keynote presentations, Oral talks, Poster presentations, Symposia, Workshops, Exhibitions and Career development programs. This conference could be an excellent occasion that brings along novel and worldwide blend of monster, driving colleges and Institutions making the gathering a perfect stage to share mastery, encourage coordinated efforts over the world and reveal advancements in [Traditional & Alternative Medicines](#).

[Traditional Medicine Conference](#) main slogan is to address the challenges in making a safer, sustainable and affordable system for medication, and health through consolidating the underpinning Alternative Medicine research platforms. Researchers and expertise who's in these subjects need in-depth understanding, it's important to share knowledge with others due to newly generated problem. For that they need a platform to share their knowledge and we could say we create a golden opportunity for those people to expose their knowledge through this Traditional Medicine Congress.

Pharmacy Council stated that more than 275 new chemical production projects had been announced since 2010 with a total value of more than \$170 billion, with a full 49% already complete or under construction; 61% of these are the foreign direct investment. By 2021, U.S. capital spending by the chemical industry will reach \$65 billion— more than triple the level of spending at the start of this prolonged cycle in 2010. The trade surplus in chemicals (excluding pharmaceuticals) will grow to \$36 billion this year as exports rise by 2% to \$132 billion and imports hold steady at \$96 billion. Two-way trade between the U.S. and its foreign partners will reach \$227 billion this year and will grow steadily over the coming years.

### Market Analysis

[Pharmaceutical Sciences](#) is a stimulating field as it links many scientific disciplines and allows for collaboration with

of synthesizing new pharmaceuticals. They also improve the processes by which existing [pharmaceuticals](#) are made. Medicinal chemists are focused on drug discovery and development and are concerned with the isolation of medicinal agents found in plants, as well as the creation of new synthetic drug compounds.
