

Nanotechnology and Advanced Materials

Adina Campbell*

Announcement

Nanotech Expo 2021 invites all the experts and researchers from the Nanotechnology and Materials Engineering sector all over the world to attend the “2nd World Congress on Nanotechnology and Advanced Materials” (Nanotech Expo 2021), which is going to be held on Nov 08-09, 2021 at Paris, France.

Nanotech Expo 2021 conference includes Keynote presentations, Oral talks, Poster Presentations, Workshops, and Exhibitors. Nanotechnology and Materials Engineering are forthcoming use in healthcare, electronics, cosmetics, and other areas. Nanomaterials are the elements with the finest measurement of size 10^{-9} meters. The theme of the conference is “**To explore the implications and innovations of nanotechnology and advanced materials to better lives**”. During the conference International symposiums, Panel discussions and B2B meetings are organized and also International workshops are conducted based on the specific topics related to Nanotechnology and Materials Engineering.

The properties of many materials change when the size scale of their dimensions approaches nanometers is the foremost interesting thing about nanotechnology. Materials scientists work to apprehend those property changes and utilize them in the processing and manufacture of materials at the Nanoscale. The field of materials science covers the discovery, characterization, properties, and quit-use of Nanoscale materials.

The most other engineering majors work with Nanotechnology, but the heart of nanotechnology is Materials Science and Materials Engineering across all the disciples. Nanotech Expo 2021 conference is also comprised of Best Post Awards, Best Oral Presentation Awards, Young Researchers Forums (YRF) and also Video Presentation by experts. We are glad to welcome you all to join and register for the “2nd World Congress on Nanotechnology and Advanced Materials” (Nanotech Expo 2021) which is going to be held on November 08-09, 2021 Paris, France

Targeted audience

- Material Engineers

- Nanotechnologists
- Chemical Engineers
- Material Science Researchers
- Pharmacists
- Nano-Scientists
- Material Chemists
- Academic Professors
- Pharmaceutical Companies and Markets
- Students from Nanotechnology, Chemical, and Material Engineering

Who should attend

The Nanotech Expo 2021 conference will be useful to participants both from the Academics and Industry working in all the domains of Nanotechnology and Materials Engineering. The Nanotech Expo 2021 is especially intended for Investors, Entrepreneurs, Capitalists, Ventures and other readers with a need to know where the Nanotechnology market is headed in the future. The members around the globe focused on learning about Pharmaceutical Nanotechnology and the developments in the most recent techniques also newest updates in this field.

- Nanotechnology and Materials Engineering Associations and Societies
- Nanotechnology and Materials Engineering Faculties
- Directors of Nanotechnology Companies
- Nanotechnology and Materials Engineering Students
- Pharmaceutical Industry Mentors and Marketers
- Nanotechnology and Materials Engineering Scientists
- Directors of Materials Engineering companies
- Nanotechnology Engineers
- Nanotechnology and Materials Engineering Researchers
- Exhibitors and Sponsors

Come be Part of it...!
