

Past Conference Report on Artificial Intelligence, Big Data Analytics & Iot

Mansi Priya

B.I.T. Sindri- Jharkhand, India

We are delighted to inform you that Artificial Intelligence, Big Data Analytics & Iot Scheduled on October 14, 2020; Dubai, UAE at 10:00 AM (UTC +5:30) has been successfully hosted with eminent speakers around the world. The summit will be forward with the theme Smart Innovative Trends in Bigdata & .

Scientific sessions Webinar on Artificial Intelligence, Big Data Analytics & Iot

- Maternal Mortality
- Artificial Intelligence
- Robotics
- Quest for Artificial Intelligence: Dreams and Dreamers
- Natural Language Processing
- Big Data Analysis
- Modern Artificial Intelligence
- Ethics OF Artificial Intelligence
- Evolutionary Robotics
- Components of Robot

Eminent Speakers at Webinar on Artificial Intelligence, Big Data Analytics & Iot

Mansi Priya, B.I.T. Sindri- Jharkhand, India.

Biography

I am a Data Scientist with a demonstrated history of working for Yamaha for two years. Currently I live in Japan and am actively working on different machine learning problems all over Yamaha. I am active user of LinkedIn, Kaggle and Analytics Vidhya. I have done Bachelors in Technology from BIT Sindri, Dhanbad with Computer Science branch. Some of my achievements are: I am winner of IGNITE Award all over India for Innovative ideas which is announced on the birthday of Dr. A.P.J. Abdul Kalam. I got felicitate by Dr. A.P.J. Abdul Kalam himself for the same. I have one patent till now for my prototype of User Friendly Pedal Rickshaw. I have also been second runner up in Smart India Hackathon which is the world's largest hackathon organized by Government of India and MHRD. I have always been keen on learning on something new. This accounts for my numerous courses that I have done and tried to implement till now. Currently I am trying to learn Japanese to ease my life in Japan.
