

Past Conference Report on Materials Processing-2020:

Meetings International successfully anchored its leading “15th International Laser Advanced Materials Processing Conference” slated on June 22-23, 2020 at Osaka, Japan. Materials Processing 2020 is distinguished with the attendance of Editorial Board Members of supported Journals, Scientists, young and brilliant researchers, business delegates and talented student communities representing more than 25 countries, who made this conference rewarding and fecund.

Our 15th International Laser Advanced Materials Processing Conference was based on the theme “Estimating future advancements to be created and the future laser marketing” which has encrusted the below

Scientific sessions:

- Laser & Optics
- Advanced Laser Processing
- Advanced Optical and Magnetic Material
- Advanced Materials & Functional Devices
- Micro patterning and Nano processing
- Gas, solid and diode laser
- Beam delivery system
- Micro and remote welding

- Laser detectors
- Laser device in Medical
- Industrial application of Laser
- Laser Safety and environmental aspects

The conference was initiated and embarked with an Opening Ceremony followed by a series of lectures delivered by members of the Keynote forum and Speakers. The peerless people who promulgated the theme with their exquisite talks were:

- Shuhei Kodama, Tokyo University of Agriculture and Technology, Japan
- Guan Yingchun, Beihang University, China
- Soshu Kirihara, Osaka University, Japan
- Nathaniel Quick, Laser Institute of America, USA
- Reza Shoja Razavi, Malek Ashtar University of Technology, Iran
- Yuchao Li, Jinan University, China
- Jiajun Xu, Huazhong University of Science and Technology, China
- Yanming Wu, Tsinghua University, China
