

Petra Global Health Services Consulting

Begum Bayburtlugil

General Manager & Marketing Director at Petra Global Health, Turkey.

Abstract:

Petra Global is a medical tourism consultancy located in Istanbul, Turkey offering high quality healthcare in almost every kind of branches to international patients who are seeking medical help in abroad. Our goal is to provide you with medical treatment that exceeds your expectations and growth of reputation through your recommendations.

We are in collaboration with high technology equipped and international certificated hospitals and work with experienced doctors and well-trained staff and keep our prices moderate so that a large number of patients can experience our medical services.

We are specialized in plastic, aesthetic and reconstructive surgery, hair transplantation, cosmetic dental and eye treatments, orthopedics, IVF treatment, neurosurgery, cancer treatments, brain device for Parkinson disease and many more.

Our aim is to provide an easy and pleasant medical service to our patients and help them on their recovery only. Once a patient decides to have treatment with us, we organize anything he/she may need here. Hotel and/or flight booking, local transportation, between airport and hotel/hospital, supplying medications and translation service. It is always easy for our patients to contact our doctors on our free consultation dates.
